'SpaceWorks'

Office is the place where idea, creativity, innovation and success become real.

From here, we started the concept of 'SpaceWorks', the science of integrated solutions to create a modern office. It is a place where people work, meet and connect.

The way we work has changed. From the rise of mobile knowledge workers to generational changes and technological advances, many forces are continuously impacting how and where we work.

Nowadays, people can work more flexibly than every before. To stay relevant in this fast-paced world, our work environments need to change.

The concept of 'SpaceWorks' will be the solution to create an Modern working environment by merging the modern spaces with the digital solutions, companies can give their employee the flexibility to work in the way that they need. Our variety of furnitures along with technology solutions designed to promote communication, movement and employee health.

Our solutions also support your people working on a diverse range of activities, from deep thinking to knowledge sharing and collaboration. As a result, the organization, can enhance the experience of the employees, leading to better them collaboration, more innovation, and more knowledge-sharing while decreasing office space cost which in turn boosts business performance.

WELCOME TO A

MODERN OFFICE

▼ we're entering the era of the modern smart office.

BUT WHAT DOES IT REALLY MEAN?

WHAT MAKES AN OFFICE 'SMART'?

Today's employees want to work in a way that suits them. Sitting or standing, a bustling central workspace or a smaller quiet space, indoor and outdoor areas, people want to move seamlessly between the buildings and spaces. Forward-thinking companies are creating flexible and modern spaces to increase collaboration and productivity. But they can do more. The office of the future is not just a beautiful building. It is a modern smart office.

It's about an integrated environment that combines thoughtful modern workspace and smart technology; forming a culture that enhanced productivity and employee experience to

▼ **WORK**
smarter, better, and faster.

Modern workspaces are designed to provide a variety of work setting and areas of an office that allow employees to choose based on a diverse range of tasks throughout the day, from deep thinking to knowledge sharing, collaboration and everything in between.

A smart Office refers to the use of connected technologies to support modern workspace in order to engage employees with their work environment.

Compactor

Compactor Storage

Compactor is systems, solutions for
Industrial Storage Equipment, Material Handling
Automation, Rack Protection & Office Storage.

MOBILE SHELVING SYSTEMS

Mobile Shelving Systems offers high-class leading technical innovation, design versatility and user-configurable options.

Double your storage capacity with Compactor Systems with a streamlined singular aisle design cramped? frees up space for othe.

HAND DRIVE

With the basic standard storage solution system, the Hand-Drive unit is the key. It is suitable for limited storage areas and outstanding on long corridors.

Each unit consists of lightweight and strong construction material creating the units to slide effortlessly.

Desegregate handles prevent any obstructions into working spaces and possess uniform appearance.

MECHANICAL DRIVE

Mechanical-Drive units are an upgraded version of Hand-Drive. These units are suitable for a large storage area.

Mechanical units still consist of lightweight and strong construction material, with the use of high tensile aluminum and combination of high-quality woods and plastic.

The special design of these units added the crank handle function which makes moving heavy loads become much easier due to our advanced gear system.

SHELVING SYSTEMS

The shelving system is one of the indispensable pieces of furniture in any building, such as hospitals, offices, schools and every business group.

Compactor Systems, We produce and install shelving that customers can design to fit their space. We are also happy to give advice on the most suitable and creative design.

Our shelving systems are attractive and strong and durable from serving customers for over 20 years.

FLEXI-SHELF

Flexi-Shelf is a panel shelf system. The shelf consists of an advanced combination of steel and aluminum causing the shelf to withstand and store the products weighing up to 70 kg. With extra reinforcement bars that we can add under the shelves to increase the weight capacity up to 150 kg. The shelves will be able to adjust up and down by 20 mm increments along the shelving system.

Flexi-Shelf also comes with standard optional accessories in the range of Book shelf support, Dividers, Hanging Rack, and etc.

NOVA-SHELF

Nova Shelving is a lighter version with four-shelving systems. The post frame can both stay open or be fitted with plastics, plain steel panel or polypropylene panel. The shelf has the capacity to store products weighing up to 70 Kg with the ability to level the adjustable to 20 mm increments.

Nova Shelving will provide custom depths for special applications and also comes with standard optional accessories in the range of Cloth Rack, Drawer, Hanging file frame, and etc.

Stack

Steel Storages (Stackable)

To enhance workplace performance, the range of versatile storage system keeps work materials at hand. With STACK steel cabinets, the choices keep coming. Models include mobile pedestal, free standing book shelf cabinet, and lateral filing cabinet. Add it all up, and you have a very complete array of storage system to meet any functional and design requirement. STACK offers attractive combinations of choice and quality at a cost conscious price. Ideal for holding files and documents, STACK can be positioned under the work surface for handy individual storage, or placed outside workstations for archival or shared storage.

THE OPEN SPACE

The open space office requires elements to separate the operative workspaces. These partitions must serve the needs of the different workstations and at the same time ensure them greater privacy. The modularity of the STACK series and its wide range both of sizes and accessories makes it ideal to respond effectively to these needs. STACK thus serves a dual purpose, as it combines the storage function with that of dividing the spaces and lending decor to the rooms.

locker

The workforce and the office space is dynamics. Users are on the move, in and out of work. The personal storage requirement is increasing. More and more company require personal, and temporary storage for their staff.

The STACK, steel lockers, are available in different widths, height and finishes. It make STACK locker highly adaptable to all spaces and uses.

Multi

Wooden Storages

Maximize your organizational options without compromising valuable workspace. All of our storage portfolios are designed to blend with our systems, tables and desks.

Available in one and two tones colors

PEDESTALS

Pedestals are the ideal complement to workstations. With its clear design and very high level of functionality– mobile, support, with lateral access, 3 drawers + file drawer etc. It is the mobile addition to office furniture that makes offices appear practical, flexible and modern.

Dado

Wooden Storages

DADO collection suggests concrete solutions for the modular office furniture. It has its roots in a system of squared modules, available in all of the finishes of this same collection, which can be combined and placed in a number of environments, from the directional to the living space.
