'SpaceWorks'

Office is the place where idea, creativity, innovation and success become real.

From here, we started the concept of 'SpaceWorks', the science of integrated solutions to create a modern office. It is a place where people work, meet and connect.

The way we work has changed. From the rise of mobile knowledge workers to generational changes and technological advances, many forces are continuously impacting how and where we work.

Nowadays, people can work more flexibly than ever before. To stay relevant in this fast-paced world, our work environments need to change.

The concept of 'SpaceWorks' will be the solution to create a Modern working environment by merging the modern spaces with the digital solutions, companies can give their employee the flexibility to work in the way that they need. Our variety of furnitures along with technology solutions designed to promote communication, movement and employee health.

Our solutions also support your people working on a diverse range of activities, from deep thinking to knowledge sharing and collaboration. As a result, the organization, can enhance the experience of the employees, leading to better them collaboration, more innovation, and more knowledge-sharing while decreasing office space cost which in turn boosts business performance.

WELCOME TO A

MODERN OFFICE

▼ we're entering the era of the modern smart office.

BUT WHAT DOES IT REALLY MEAN?

WHAT MAKES AN OFFICE 'SMART'?

Today's employees want to work in a way that suits them. Sitting or standing, a bustling central workspace or a smaller quiet space, indoor and outdoor areas, people want to move seamlessly between the buildings and spaces. Forward-thinking companies are creating flexible and modern spaces to increase collaboration and productivity. But they can do more. The office of the future is not just a beautiful building. It is a modern smart office.

It's about an integrated environment that combines thoughtful modern workspace and smart technology; forming a culture that enhanced productivity and employee experience to

▼ **WORK smarter, better, and faster.**

Modern workspaces are designed to provide a variety of work setting and areas of an office that allow employees to choose based on a diverse range of tasks throughout the day, from deep thinking to knowledge sharing, collaboration and everything in between.

A smart Office refers to the use of connected technologies to support modern workspace in order to engage employees with their work environment.

TRAINING TABLE

Link

Training Table

Ideal for a swift change the workspace to perfectly match each collaborative patterns; training, lecturing, classroom, workshop session, discussion, group meeting, conferencing, convention, presentation and etc.

Folding Button

Fold | Unfold

Belonging Shelf

Ganging Mechanism

TRAINING

Mobile freestanding table, connectable with ganging set for more sturdiness. Complete the innumerable forms with trapezoid and hexagon table to upgrade the standard row configuration. With trapezoid shape table at the middle, a sine wave configuration is created, hence an effective training atmosphere are in your control. Personal belongings are finely organized in belonging shelf.

MEETING

With assorted shapes, innumerable configurations can be created. Set up and store the meeting table is easier. The excessive tables can be composed to serve other purposes in minutes, or nested to conserve space. Limitless possibilities to suit with each discussion layout, open - or close - type. Hexagon table allows creating "V" configuration that supports presentation and teleconference.

Unlock y

CONFERENCE

Meticulously designed for intensive and collaborative communication, thus the conference form creating synergy ideas and solutions within a group of colleagues. Extendable seat capacity is plausible, as needed. High flexibility to arrange in either open or close configuration per selection from varies sizes of table.

A new dimension to the concept of training, collaborative and conference areas. In a simple lift the lever, the table top can be tipped up and the base with lockable castors can be turned the table unmoved. The tables are not just easy to move, but also compactly nest one with another with ganging set.

Class

Foldable Table

FRONT FOLD

Mobile front folded-table range with flip-top table tops, which lock automatically in a horizontal and vertical position. With a ganging connector, the models are a sound choice for multi-use spaces designed for interactive class room, meeting or dynamic conference types in settings where people convene for meetings, workshops and projects.

MID FOLD

Thinking big with the middle-folded frame which was designed for larger table top. The spacious cable channel for installing socket modules can be added to the table in the center of the understructure too. The applications are therefore perfect for all-sided access to the table and fit from temporary work spaces, to tables for meetings or conferencing.

TAO

TAO contains both classic and modern elements integrating into one single range a product grounded both in tradition and highly innovative features. The result blends together two design concepts which have in common up-to-date design and the made-to-measure solution that today's workplace demands-flexible, customized and extremely functional.

SIGMA

Elegance enters the office with this exclusive ultra white glass, producing the right balance with its metal finishes. The meeting table with white glass top adds prestige to important moments, where appeal and top design play a decisive role in optimizing time and work.

ZEN

More Than just a table.

ZEN, it's a collection of integrated elements that encourage collaboration and inspire solutions. Discovering an easier way to connect and collaborate.

T4

The delicate design bears the uniqueness the perfect display shows the excellence.

T4 is coordinating different materials of metal and wood. The wood grain texture outlines a sense of mystery and madness. Thoughtful line design expresses neat, steady and trendy.
