'SpaceWorks'

Office is the place where idea, creativity, innovation and success become real.

From here, we started the concept of 'SpaceWorks', the science of integrated solutions to create a modern office. It is a place where people work, meet and connect.

The way we work has changed. From the rise of mobile knowledge workers to generational changes and technological advances, many forces are continuously impacting how and where we work.

Nowadays, people can work more flexibly than ever before. To stay relevant in this fast-paced world, our work environments need to change.

The concept of 'SpaceWorks' will be the solution to create a Modern working environment by merging the modern spaces with the digital solutions, companies can give their employee the flexibility to work in the way that they need. Our variety of furnitures along with technology solutions designed to promote communication, movement and employee health.

Our solutions also support your people working on a diverse range of activities, from deep thinking to knowledge sharing and collaboration. As a result, the organization, can enhance the experience of the employees, leading to better them collaboration, more innovation, and more knowledge-sharing while decreasing office space cost which in turn boosts business performance.

WELCOME TO A

MODERN OFFICE

▼ we're entering the era of the modern smart office.

BUT WHAT DOES IT REALLY MEAN?

WHAT MAKES AN OFFICE 'SMART'?

Today's employees want to work in a way that suits them. Sitting or standing, a bustling central workspace or a smaller quiet space, indoor and outdoor areas, people want to move seamlessly between the buildings and spaces. Forward-thinking companies are creating flexible and modern spaces to increase collaboration and productivity. But they can do more. The office of the future is not just a beautiful building. It is a modern smart office.

It's about an integrated environment that combines thoughtful modern workspace and smart technology; forming a culture that enhanced productivity and employee experience to

▼ **WORK smarter, better, and faster.**

Modern workspaces are designed to provide a variety of work setting and areas of an office that allow employees to choose based on a diverse range of tasks throughout the day, from deep thinking to knowledge sharing, collaboration and everything in between.

A smart Office refers to the use of connected technologies to support modern workspace in order to engage employees with their work environment.

URBAN

Desking & Systems

SYNC

Table & Training Systems

Our expert teams can help you reimagine your offices with a focus on the needs of your employees and create better work experiences for your entire organization.

WHAT'S NEW 2023

Urban

Height- adjustable table.

DESIGN FOR WELL-BEING

URBAN, ergonomic, innovative and stylish height-adjustable desks make movement a natural part of your day as you transition from sitting to standing that enhance productivity, comfort, and well-being.

A FRESH AND DIFFERENTIATING LOOK

URBAN, ergonomic, innovative and stylish height-adjustable desks make movement a natural part of your day as you transition from sitting to standing that enhance productivity, comfort, and well-being.

FLEXIBILITY MEET STYLE

Everyone works differently. Through a variety of features and material options, URBAN adapts to fit the individual user, letting you choose how to work.

FRAME

URBAN is unique, differential and aesthetic thanks to round legs. Choose I-feet design for a minimal look and Y-feet design to define a unique modern style.

PERFECT DESK CONTROL PANEL

With our latest technology, we introduce an intuitive desk panel for office desks. These control panels enable the user to maneuver the desk high and position to different styles of work and purposes.

The desk can be adjusted from the lowest of 635 – 1270 mm. highest by the power of 2 silent motors. Result in Anti-Collision Technology that allows uninterrupted movement throughout the workday. The panel offers four different memory positions that have a reminder function

that appears via a strip light. Display panel is clear with the special access of Bluetooth, where you can connect to your personal mobile and will be able to adjust the height through tapping on your device. Lastly, with our Featuring ZERO™ system, consumption of the power is very low due to our standby mode.

DESIGN CHOICES

The utilization of legs design, different types of worksurfaces, and a selection of colors, can infuse inspiration and energy into the workspace. These elements can be used to create a welcoming work environment in team spaces by harmonizing with the overall aesthetic of the area.

PRIVACY SCREENS

Privacy that move up and down with you. Urban screen provides a solution for the challenge of open-space with a range of colors and material finishes.

**Screen on top

Sync

Solutions for agile working

Creating Space for productive and creative work with SYNC

There is a need for more flexibility when it comes to Agile working. For more productive and creative work entire offices must be flexible allow spontaneous meeting and assembled in no time.

Sync allows to redesign the space, simply put your own work desk together with colleagues' work desk when and where it makes sense to work / meet / connect effectively. All components can be individually combined and allow great freedom depending on work requirement.

for more productivity

The way we work has changed. Nowadays, people can work more flexibly than every before. As a result, tomorrow's employees will work in more agile way - creatively and constantly communicating. Agile working means that teams can get together spontaneously for a project or task. However, individual employees may also need mobile retreats where they can concentrate undisturbed and work creatively.

SYNC OFFERS TEAM THE POSSIBILITY

to adapt their own space to their needs. A new concept of SYNC that enables to redesign space quickly and efficiently from work desk to team desks. Its modular function and incorporation of casters allow you to create new areas easily hence, it can be also reconfigured depending on your needs.

TRAPEZOID TABLE

This compact, contemporary trapezoid desk designed for solo work or collaboration provides solid functionality and great flexibility. It can be arranged in countless ways for groups of all size.

CURVED TABLES

The versatile curved mobile table, is a fun shape that can be arranged in a variety of creative ways. Use a single curved table or join multiple together for a larger collaborative space.

Box

POD & BOOTHS

When you need to work with maximum focus and minimal distraction, just get into a BOX. It's a compact workspace with huge benefits. Each BOX is highly ergonomic and functional, packed with all the technological goodness you need to stay connected to, or away from, the outside world—anytime. Ideal for uninterrupted work, holding discussions, making important calls, and running teleconferences.

I-BOX

Up to one person

POD & BOOTHS

I-BOX is designed to fit one person. When you need to work with maximum focus and minimal distraction, just get into a I-BOX

FIXED AND FOCUSED

The I-BOX is a single person private space suitable for uninterrupted work and making important calls. This quiet and comfortable workspace can increase employee productivity, especially in an open-concept office.

I-BOX

W1010 D1010 H2170

WEIGHT: 325.2 kg (steel) / 308.1 kg (wooden)

FOCUS-BOX

Up to one person

POD & BOOTHS

FOCUS-BOX is designed to work in absolute focus and privacy, the FOCUS-BOX is perfect to seats one person comfortably.

Balance and relaxation

NEX is a light ergonomic office chair to use in normal sitting positions and sitting high with open angle between upper body and legs to provoke better blood circulation and right S-curve on back spine.

All scientific research shows that open angle between legs and backrest creates more blood flow in the body and less pressure on the spine in the lower section, which is the two most dangerous consequences sitting for long hours.

Nox

Task Chairs

NOX chair is a perfect complement to the office space. It allows employees to get away from the busy office desks and interact with each other more efficient at the bar or around the round table. NOX is compact, lively and expressive, which not only promotes creative collaboration, but also makes the space full of vitality.

Compactor

Compactor Storage

Compactor is systems, solutions for Industrial Storage Equipment, Material Handling Automation, Rack Protection & Office Storage.

MOBILE SHELVING SYSTEMS

Mobile Shelving Systems offers high-class leading technical innovation, design versatility and user-configurable options.

Double your storage capacity with Compactor Systems with a streamlined singular aisle design cramped? frees up space for othe.

HAND DRIVE

With the basic standard storage solution system, the Hand-Drive unit is the key. It is suitable for limited storage areas and outstanding on long corridors.

Each unit consists of lightweight and strong construction material creating the units to slide effortlessly.

Desegregate handles prevent any obstructions into working spaces and possess uniform appearance.

MECHANICAL DRIVE

Mechanical-Drive units are an upgraded version of Hand-Drive. These units are suitable for a large storage area.

Mechanical units still consist of lightweight and strong construction material, with the use of high tensile aluminum and combination of high-quality woods and plastic.

The special design of these units added the crank handle function which makes moving heavy loads become much easier due to our advanced gear system.

SHELVING SYSTEMS

The shelving system is one of the indispensable pieces of furniture in any building, such as hospitals, offices, schools and every business group.

Compactor Systems, We produce and install shelving that customers can design to fit their space. We are also happy to give advice on the most suitable and creative design.

Our shelving systems are attractive and strong and durable from serving customers for over 20 years.

FLEXI-SHELVE

Flexi-Shelf is a panel shelf system. The shelf consists of an advanced combination of steel and aluminum causing the shelf to withstand and store the products weighing up to 70 kg. With extra reinforcement bars that we can add under the shelves to increase the weight capacity up to 150 kg. The shelves will be able to adjust up and down by 20 mm increments along the shelving system.

Flexi-Shelf also comes with standard optional accessories in the range of Book shelf support, Dividers, Hanging Rack, and etc.

NOVA-SHELVE

Nova Shelving is a lighter version with four-shelving systems. The post frame can both stay open or be fitted with plastics, plain steel panel or polypropylene panel. The shelf has the capacity to store products weighing up to 70 Kg with the ability to level the adjustable to 20 mm increments.

Nova Shelving will provide custom depths for special applications and also comes with standard optional accessories in the range of Cloth Rack, Drawer, Hanging file frame, and etc.

Stack

Steel Storages (Stackable)

To enhance workplace performance, the range of versatile storage system keeps work materials at hand. With STACK steel cabinets, the choices keep coming. Models include mobile pedestal, free standing book shelf cabinet, and lateral filing cabinet. Add it all up, and you have a very complete array of storage system to meet any functional and design requirement. STACK offers attractive combinations of choice and quality at a cost conscious price. Ideal for holding files and documents, STACK can be positioned under the work surface for handy individual storage, or placed outside workstations for archival or shared storage.

THE OPEN SPACE

The open space office requires elements to separate the operative workspaces. These partitions must serve the needs of the different workstations and at the same time ensure them greater privacy. The modularity of the STACK series and its wide range both of sizes and accessories makes it ideal to respond effectively to these needs. STACK thus serves a dual purpose, as it combines the storage function with that of dividing the spaces and lending decor to the rooms.

locker

The workforce and the office space is dynamics. Users are on the move, in and out of work. The personal storage requirement is increasing. More and more company require personal, and temporary storage for their staff.

The STACK, steel lockers, are available in different widths, height and finishes. It make STACK locker highly adaptable to all spaces and uses.

ECOLOGY & THE ENVIRONMENT

We have a green soul

we understand the difference of steps toward the sustainable organization, and realize that we can only achieve this by working together with everyone in our company. in order to achieve our goals we have implemented an environmental management system based on the iso standard, which allows for a comprehensive approach to ecology.

ANSI/BIFMA

The Business and Institution
Furniture Manufacturer's Association.

SCS INDOOR AIR QUALITY

Certify to the most transparent Indoor Air Quality (IAQ) standard for furniture and building materials .

ISO 45001: 2018
Specifies requirement for an occupational health and safety management system

ISO 9001: 2015
