# THE ANSWER FOR ALL DETAILS OF NEEDS

Rockworth has defined the perfect design, in Rubix, with functionality and flexibility to meet the needs of the user. With perfect design as the main focus, we are equipped to create a modern workstation, with RUBIX, which can deal with any challenges that might occur at the workplace.

## RUBIX PANEL FUNCTION

RUBIX panel has been designed to support all usage formats. Users can select RUBIX panel as needs to facilitate their work effectiveness or to match with their office's conditions.

## LEG

There are various RUBIX leg designs to support various work space. RUBIX leg has been fabricated by high quality steel with 75-micron anti rust power coating.

## ACCESSORY FUNCTION

Our accessories has been designed to make users more comfortable. Users can select various accessories as needs to facilitate your work effectiveness.

## ABOVE POWER ACCESS

Above Power Access makes the user reaches the important data source, and shares their own data together easily. Above Power Access has been designed to support new technology for increasing work effectiveness. Above Power Access could be your appropriate answer for your work space.

### **HYBRID POLE**

HYBRID pole has been designed to support both thick and thin panels of workstation. Users can transform their workstation easily with HYBRID pole because it has been designed for simple installation. Smart-look workstation will be established in short time.

### **OVERHEAD CABINET**

Overhead Cabinet will make you have more work space, and it will be a safety storage for your confidential files.

### **SLIM PANEL**

Slim Panel has been designed to reduce your installation cost, and its light weight will make users clean it easily. The Slim Panel will bring the most appropriate atmosphere to your workstation.

### **BELOW POWER ACCESS**

Below Power Access makes the user reaches the important data source, and enhances performance with more work-space. Below Power Access has been also designed to support various working styles with all new technologies.

# SIGNIFICANCE OF HEIGHT

## PANEL

### AVAILABLE HEIGHT & WIDTH

• HEIGHT : 1190 | 1640

• WIDTH : 600 | 750 | 900 | 1200 | 1500

#### **1** STANDING EYE-LEVEL

Partial Standing Privacy has been designed to decrease any disturbance around your work space in high level but the users can keep collaborating with each others while standing.

#### **2** SITTING PRIVACY

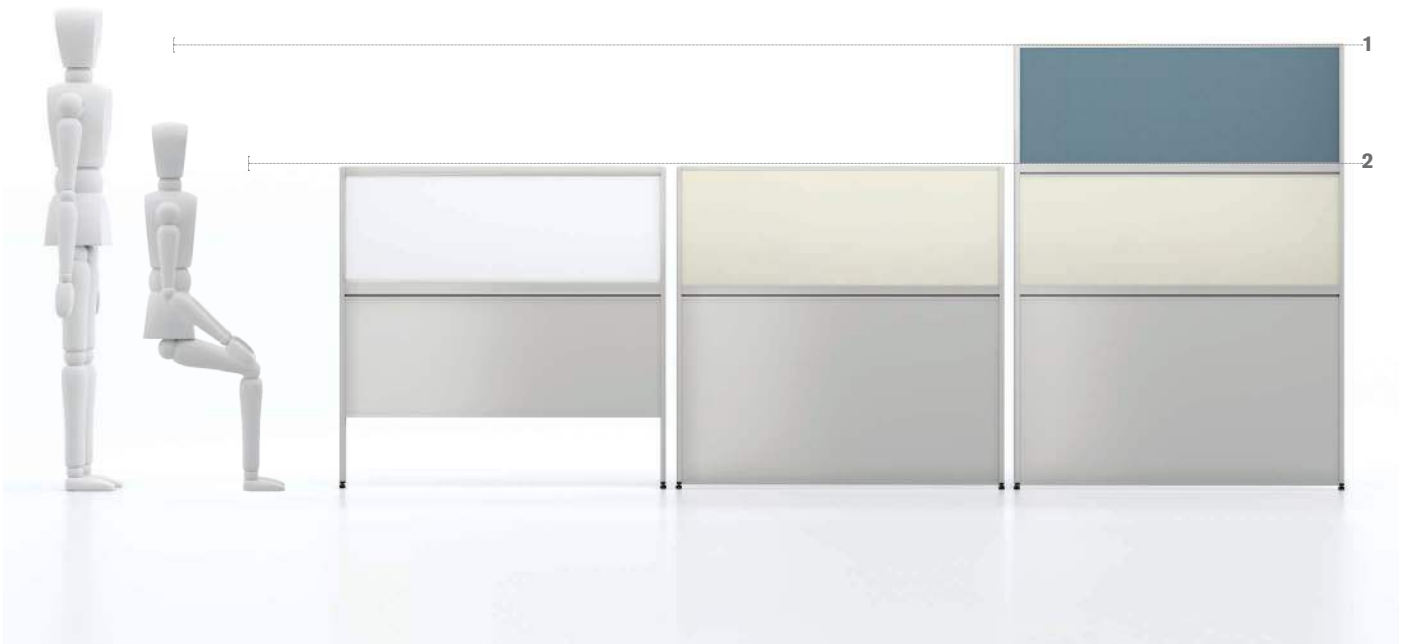

Eye Level Seated Privacy also creates the privacy atmosphere while working in workstation, and the user can keep communicating with each others even while sitting.

## SLIM PANEL

### AVAILABLE HEIGHT & WIDTH

• HEIGHT : 1190 | 1640

• WIDTH : 600 | 750 | 900 | 1200 | 1500

#### **1 STANDING EYE-LEVEL**

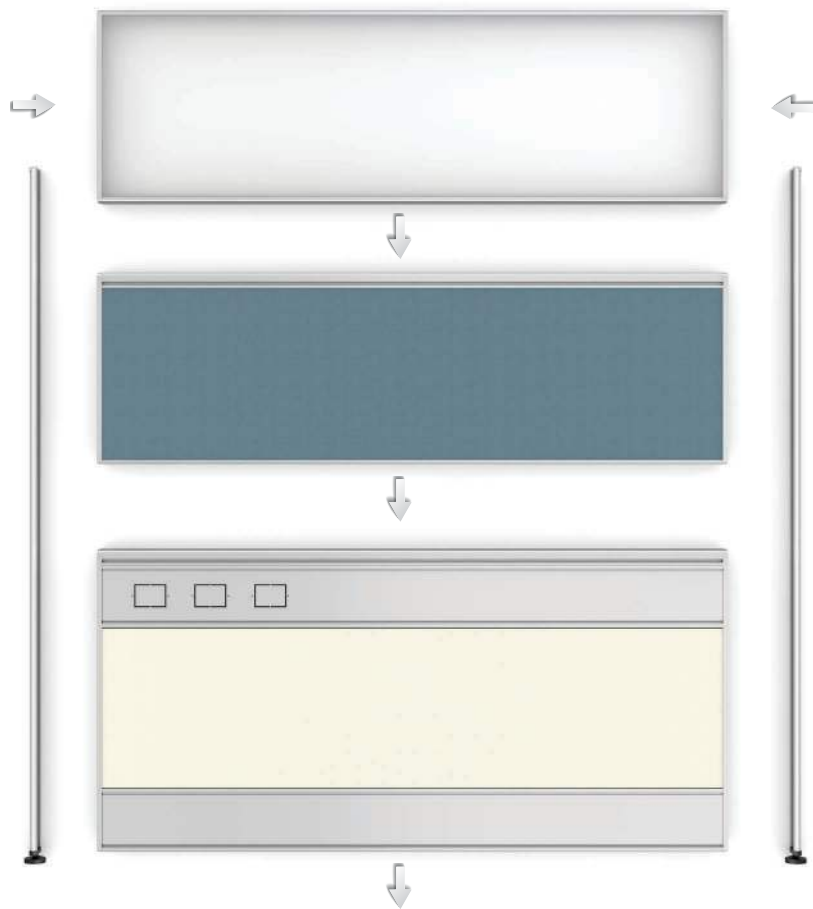

Partial Standing Privacy has been designed to decrease any disturbance around your work space in high level but the users can keep collaborating with each others while standing.

#### **2 SITTING PRIVACY**

Eye Level Seated Privacy also creates the privacy atmosphere while working in workstation, and the user can keep communicating with each others even while sitting.

# EASY FOR ESSEMBLY

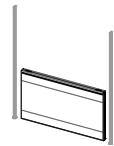

As our main design concept, we would like the user reaches our comfortable products which can be the answers for all office types. The panels have been designed to be movable and easy to assemble which would be able to meet the user's needs.

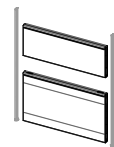

**STEP 1**  
POLE

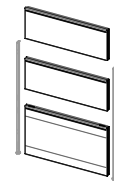

**STEP 2**

## POLE DETAILS

### 1 POLE - END

It has been made from injected-plastic which is more durable and makes more smooth connection.

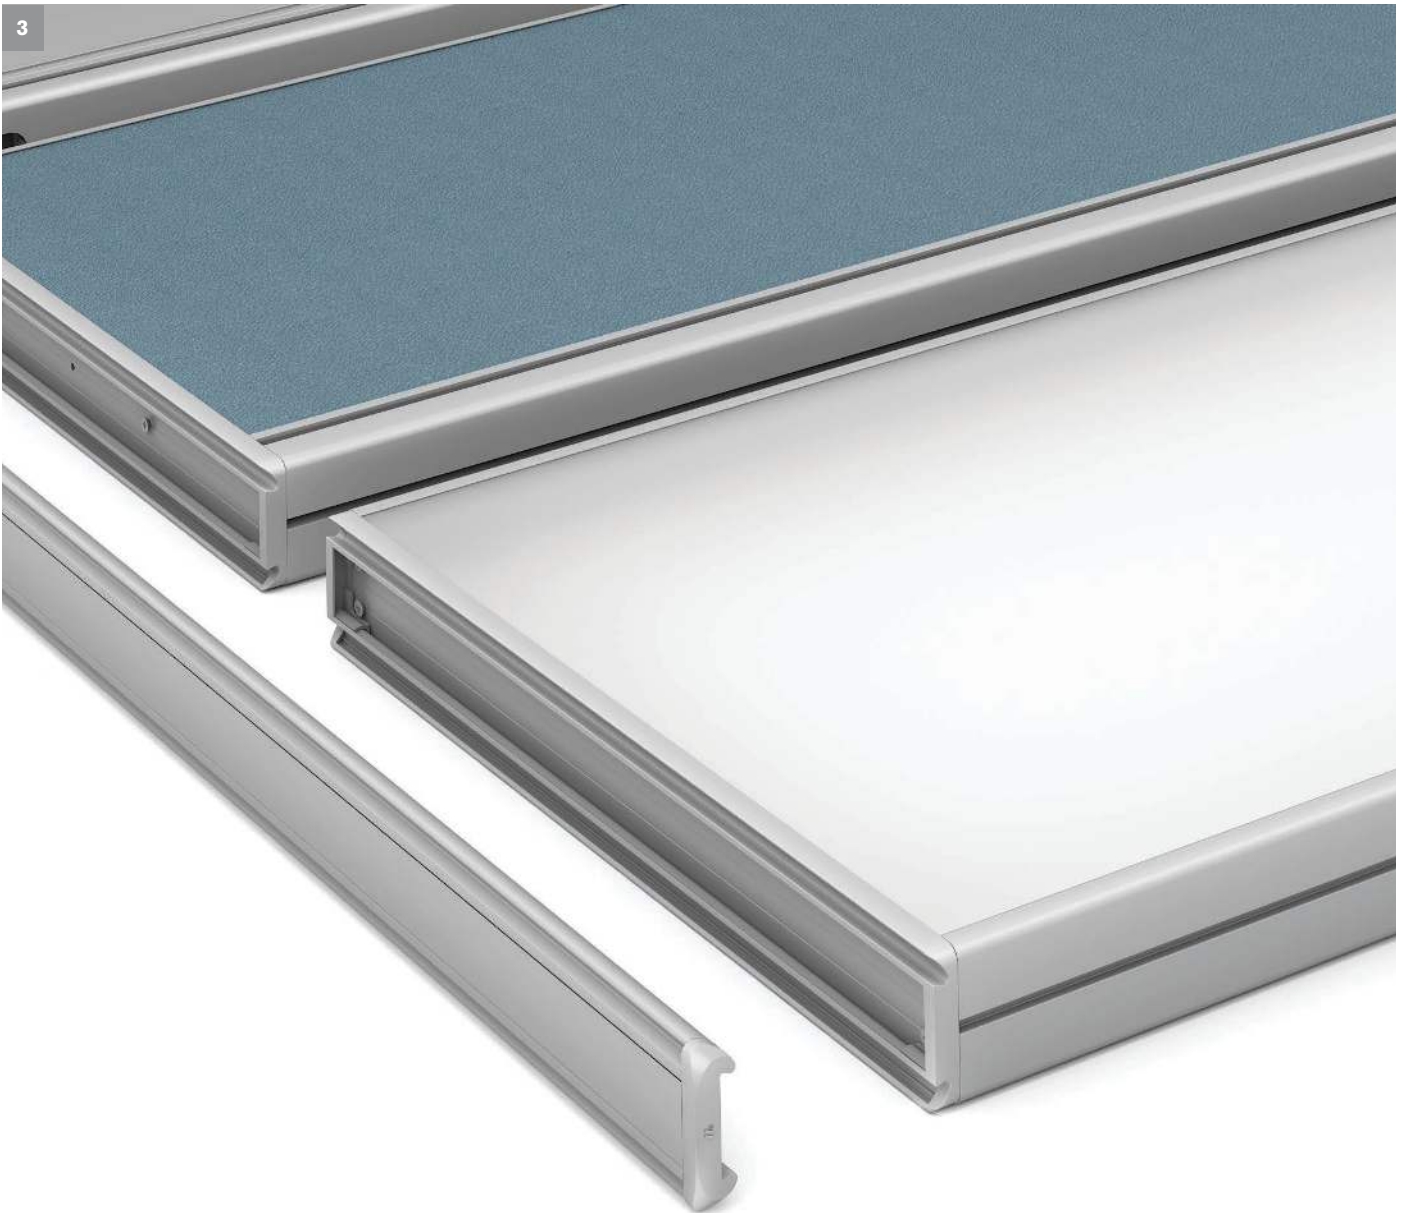

### 2 ADJUSTER

It has been also made from injected-plastic which supports horizontal assembly. Even though you haven't had smooth floor surface, the adjuster can be stretched with additional 10 millimeter height.

### 3 ASSEMBLY FORMATS

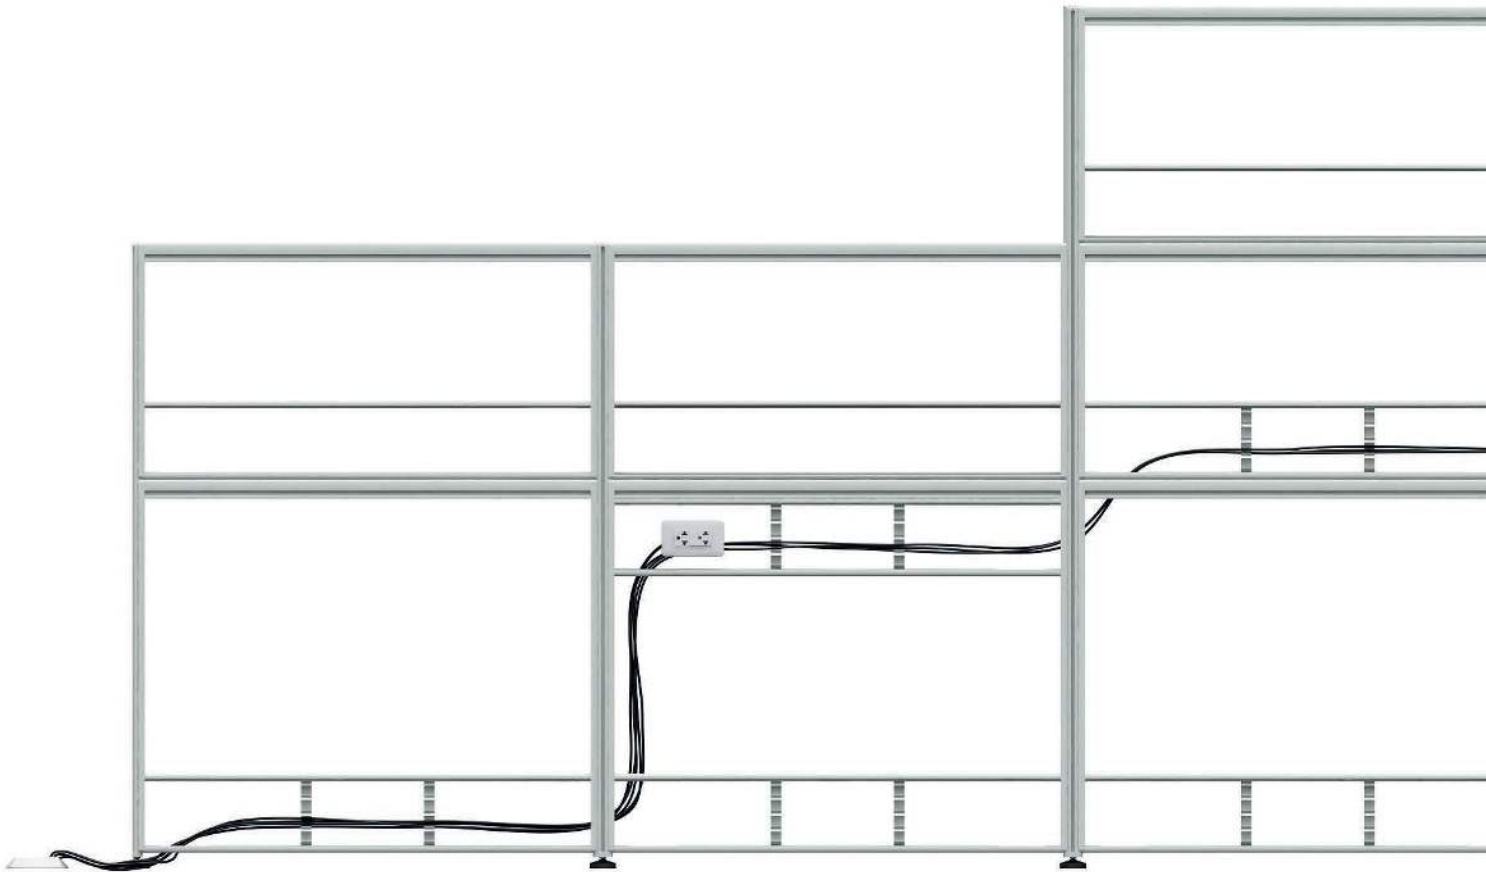

With more comfortable assembly concept, the lower support track has been designed as a slide-track which makes the user setup the panel set easily both assembly and disassembly as user'd needs.

3

# GET CONNECTED GET MORE POTENTIAL

As the current appliance formats, we have created more flexible workstation which meets the basic needs of all users especially wiring support. It has been designed to be adjusted easily. That means the user can also change the workstation layout easily. Moreover, it can support new technology which would facilitate the user's work potential as well.

## RACE - WAY

Electric cables can be wired from the below Race-Way to the upper Power Access. It has been designed to support continual wiring from panel to panel which can be selected as user's needs.

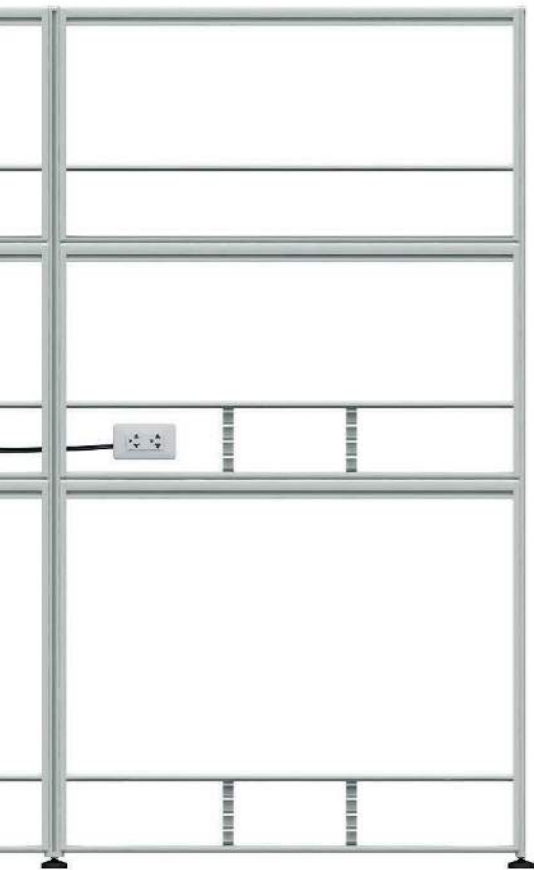

## BELOW POWER ACCESS

Wiring junctions can be selected as necessary to support the different usages such as wiring to Power Access, or wiring from panel to panel for internal wiring as well.

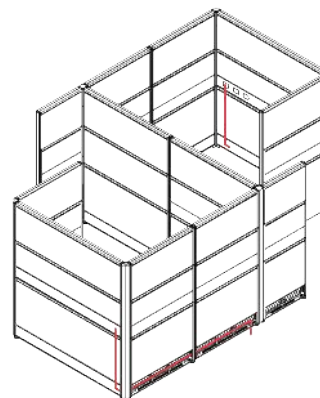

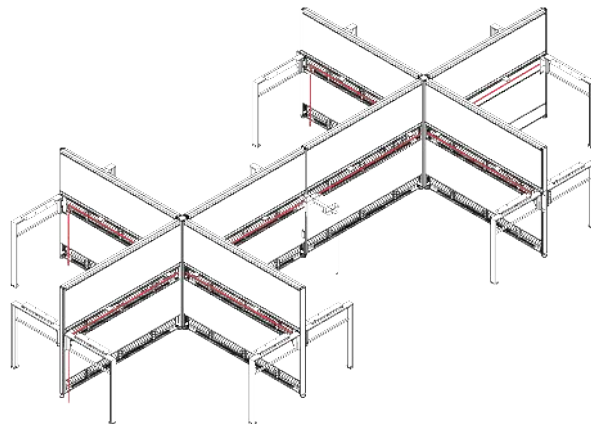

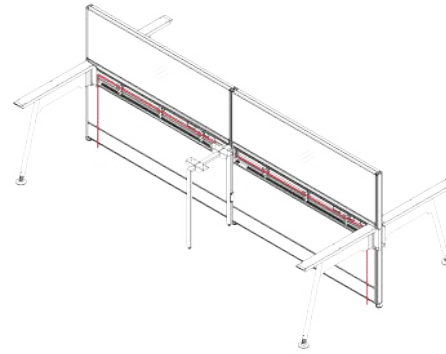

## RACE - WAY

Race-Way structure has been designed to support systematic wiring. Electric cables can be arranged by separating channel of each panel orderly.

## SAMPLE WIRING FOR DIFFERENT WORKSTATIONS

### ABOVE POWER ACCESS

Internal Power Access Points connecting with Face-Plates, standard plug, can be support any electrical equipment as the user's needs.

# Step toward the green

We will design our products,  
processing and building for  
the environment.

It has been over a few years that **ROCKWORTH** has studied the consequences to the environment caused by our business. The study is conducted not only within our organization but also to our customers, suppliers and other environmental specialists.

**WE UNDERSTAND** the difference of steps toward the sustainable organization and realize that we can only achieve this by working together with everyone in our company. Starting from product design, production through delivery and installation.

**IN THE JOURNEY OF** sustainable business and environmental friendly, we continuously focus on the following development and improvement.

- Our products meet or exceed applicable legal requirements and other requirement related to the environment aspects of the organization.
- We are continuously improving performance focus on preventing pollution, reducing waste and reducing consumption of non-renewable energy.
- We are implementing technologies to efficiently use of energy resources.
- We design, process and produce our products for the environment.
- We promote environmental knowledge and awareness.
