The background is a dark, muted brown color. It features several vertical decorative elements: a thin line on the left with a small circle at the bottom; a thin line on the right with a small circle at the top; a thicker line on the right with a large circle in the middle and a small circle near the bottom; and another thin line on the far right with a small circle at the top.

The charm of
PASSAGE

- All delicate elements are
deliberately created to answer
the need for relaxing and lively
ambience.

Step toward the green

We will design our products,
processing and building for
the environment.

It has been over a few years that **ROCKWORTH** has studied the consequences to the environment caused by our business. The study is conducted not only within our organization but also to our customers, suppliers and other environmental specialists.

WE UNDERSTAND the difference of steps toward the sustainable organization and realize that we can only achieve this by working together with everyone in our company. Starting from product design, production through delivery and installation.

IN THE JOURNEY OF sustainable business and environmental friendly, we continuously focus on the following development and improvement.

- Our products meet or exceed applicable legal requirements and other requirement related to the environment aspects of the organization.
- We are continuously improving performance focus on preventing pollution, reducing waste and reducing consumption of non-renewable energy.
- We are implementing technologies to efficiently use of energy resources.
- We design, process and produce our products for the environment.
- We promote environmental knowledge and awareness.
