

ROLY

Rockworth

1.3D Motion

Depending on the user's movements, the backrest moves in a range of 4 degrees left and right to support the body naturally and comfortably.

2.Flexible lumbar pad height adjustment

The adjustable depth (10 mm) fits your body shape, and the 4D pivot and flexible lumbar pad support the waist according to your movements, relieving pressure.

3.Kinetic moving

The seat can adjust in accordance with the movements that occur after sitting, effectively alleviating pressure on the thighs.

4.Seat angle adjustment

The tilt of the seat is adjusted downward, allowing you to maintain the correct posture according to the concentration mode of work.

5.Seat depth adjustment

The depth (front and rear) of the seat is adjustable to fit the user's body shape.

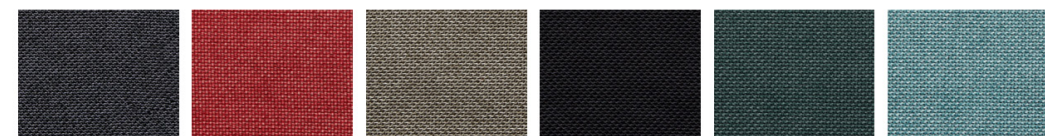

6.Dual rotation headrest

In addition to height adjustment, dual rotation is possible to accommodate work and rest, optimally supporting the user's desired posture. (height adjustment 60 mm / pad angle 10° / maximum angle 10°).

Easy-to-operate wire system

The operation button with a wire system is located at the bottom of the seat for easy adjustments, and the pictogram on the button allows easy recognition.

Dynamic support sponge

An ergonomic sponge that distributes body pressure evenly ensures a comfortable seating experience.

Multi-limited tilting

The convenient lever type allows for three levels of angle adjustment, offering a comfortable seat regardless of body shape and purpose.
