

NOTE

Foldable Table

Rockworth

In today's dynamic workspaces and multi-purpose environments, flexibility is key.

The Foldable Table is designed to seamlessly transition between uses—whether for focused individual work, collaborative sessions, or event setups. Its foldable mechanism allows for quick and effortless storage, making it an ideal solution for offices, meeting rooms, training spaces, or educational institutions

ADAPTABILITY meet SIMPLICITY

The collection

**NOTE is Flexible, Adaptable and Mobile -
Perfect for dynamic workspace setups.**

Clean lines and a minimalist aesthetic ensure the NOTE, foldable table integrates harmoniously with a variety of interior styles. Its lightweight yet robust construction provides stability while maintaining ease of movement with casters enhance mobility, and the durable surface resists scratches and stains for long-lasting performance.

Foldable System

Folding Note table is a very simple and does not require the use of force or support tools. One person will find no difficulty in using the mechanism. Under the top, Note has one handles which are operated by pulling them. In doing so, the table does not oppose resistance to rotation. Vertically stacking tables do not take up much space. When folding the top, the negative inclination angle presented prevents accidental tilting.

Mobile Design

Move Freely as Your Wish

Note tables feature a mobile design with lockable castors, allowing effortless movement and quick reconfiguration to suit any layout. This mobility enhances flexibility in dynamic workspaces such as training rooms, meeting areas, or collaborative zones. The tables can be easily relocated, nested, or stored, supporting efficient space utilization and adaptable, activity-based environments.

Modesty Panel

The Note tables offer an optional melamine or acoustic PET Felt modesty panel designed for functionality and ease of use. The panel is engineered to stay vertically aligned with the tabletop, allowing the table to be folded without obstruction. This ensures a clean, professional appearance while maintaining foldability and space-saving efficiency,

Integrated Power Access and Cable Management for Seamless Connectivity

The Note tables are engineered for modern work environments, offering seamless cable management and electrification. Integrated power outlets can be installed on the tabletop, with concealed channels running beneath the surface. Flexible PVC conduits connect through leg grooves down to the floor, ensuring safety and reducing clutter. A continuous wiring system allows tables to link power across configurations—ideal for collaborative setups. The design not only hides complex wiring but also supports rapid configuration changes without disrupting power access.

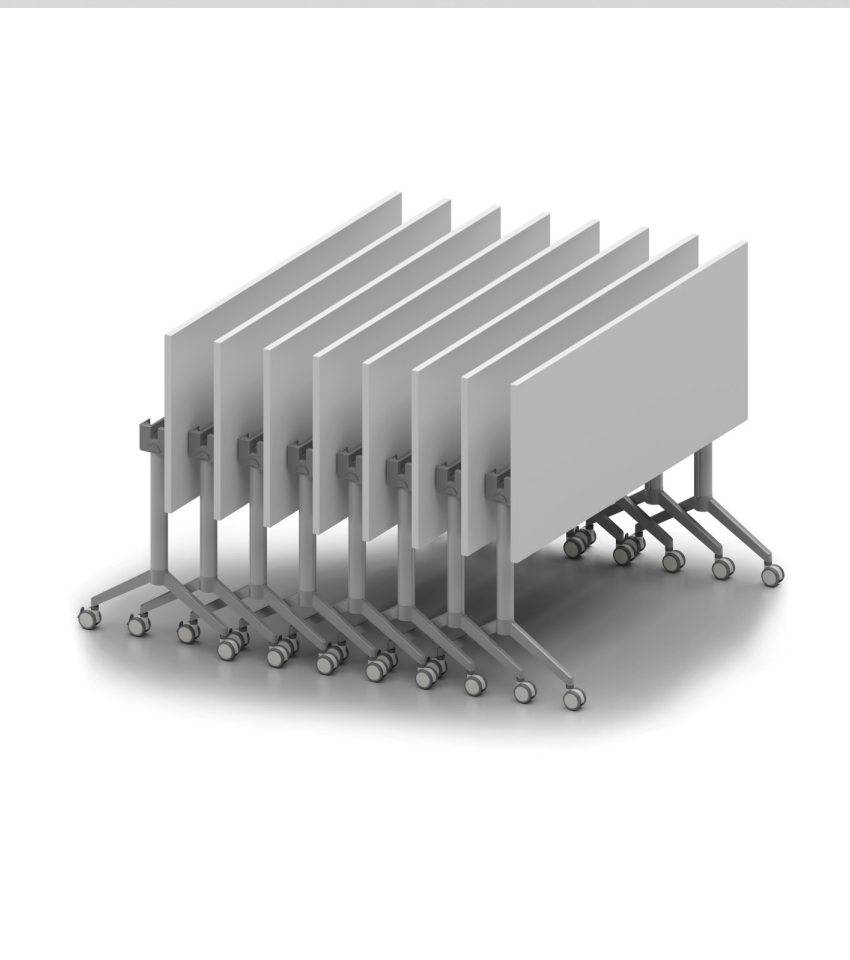

Lightweight Frame

The table frame is made of full aluminum alloy, offering a perfect balance of strength and lightness. Designed through a high-precision die-casting process using 20 mold sets, it delivers a refined modern texture while remaining easy to fold and quick to move. Weighing only 8.5 kg (for the 1200mm frame), it ensures effortless handling and long-term durability.

Stability Design

Y-shaped triangular legs are integrally die-cast to provide exceptional stability, strength, and geometric elegance. This design enhances both structural integrity and user comfort. Equipped with adjustable feet for up to 10mm height correction, the table remains steady on uneven floors. It also supports flat splicing for various layouts and offers both mobile and fixed-foot options to suit different environments.

Space Saving with Minimal Effort

The 90° folding table frame is designed to maximize space efficiency, making it ideal for compact or multi-use environments. With a simple fold, the table becomes easy to move, store, and nest with others—saving valuable floor space. An integrated handle ensures a secure grip during operation, enabling quick setup and takedown with minimal effort.

Silent & Smooth Wheel

High-quality medical-grade PU silent casters with 360° full-range steering for smooth, noiseless mobility. Designed for durability and environmental safety, each adjustable caster supports up to 40 kg, with a total load capacity of 160 kg across four wheels. This ensures quiet operation, effortless movement, and reliable performance in demanding environments.

A Quick-connect Mechanism

Ganging, a quick-connect mechanism, that enables individual tables to be easily linked together—both horizontally and vertically—with a single snap-lock system located underneath the tabletop. It allows seamless transitions from a single-user table to a larger, multi-person configuration. The system ensures fast reconfiguration without tools supporting agility.

Maximize Space Organization

The Hanging Support Bracket is designed to enhance functionality and durability by supporting convenient under-desk storage. Featuring a multi-function hanging slot with customizable options, it includes a telescopic hook that extends to hold personal items like bags, coats, or accessories. This thoughtful addition maximizes workspace organization and keeps essential items within easy reach.

WARRANTY

5 YEARS

SUSTAINABILITY

Rockworth is committed to operating with integrity and responsibility in everything we do. Our value chain reflects our deep dedication to people and the planet, guiding our actions every day. Sustainability is not just a goal—it is embedded in our mindset, shaping the way we design, produce, and deliver solutions that create a positive impact on businesses, communities, and the environment.

Safe materials

The materials and raw components used in our production processes meet stringent quality standards. They are certified to ensure they pose no risk to human health or the environment.

Waste reduction

We actively minimize raw material waste throughout the design and production stages. Examples include precision computer-cut fabrics and leathers, as well as sourcing materials in clearly defined dimensions to optimize resource usage.

Energy Efficiency

Reducing electricity consumption is a key priority for our company. We implement technical and organizational improvements and provide continuous training for employees to achieve this goal.

Waste segregation

For many years, we have successfully operated a structured waste segregation program, transferring sorted waste to authorized recycling partners. We actively encourage and educate our employees and the local community on effective waste segregation practices.

Environmental protection

We proactively identify and monitor potential environmental risks across all our operations. Our teams remain vigilant, prepared to respond effectively and responsibly whenever environmental threats arise.

CERTIFICATE

ISO 14002: 2015

Gives the requirements for environmental management systems, confirms its global relevance for organizations wishing to operate in an environmentally sustainable manner.

ISO 45001: 2018

Employees' health and safety in the workplace and improving the well-being of within the workplace environment.

ISO 9001: 2015

Quality Management Systems is a globally recognized standard for quality management. It helps organizations of all sizes and sectors to improve their performance.

ISO 50001: 2018

Energy management system: Makes it easier for organizations to integrate energy management into their overall efforts to improve quality and environmental management.

ANSI/BIFMA

The Business and Institution Furniture Manufacturer's Association from American National Standards Institute.

Scs Indoor Air Quality

Certify to the most transparent Indoor Air Quality (IAQ) standard for furniture and building materials with Indoor Advantage and Indoor Advantage Gold.

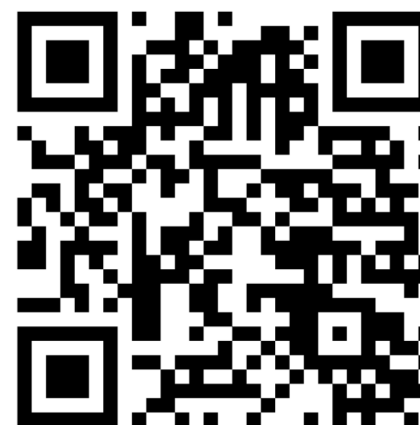

Leadership In Energy And Environment

Based on accepted energy and environmental principles and strikes a balance between known establishedpractices and emerging concepts.

Indian Building Council Member

USGBC is best known for its development of the Leadership in Energy and Environmental Design (LEED) green building rating systems.
