PRIVACY POD

Office Privacy pod is a modern solution designed to meet the evolving needs of today's workplaces. These pods combine privacy and flexibility to support focused, efficient, and adaptable work environments. By integrating Privacy pod into the office layout, businesses can optimize space usage and move beyond traditional office design. More than furniture, the Office Private Pod represents a smarter way to shape the future of Privacy pod.

I-BOX

Designed for the individual worker seeking a private space for focused tasks. Compact yet ergonomically optimized, this pod suits for confidential calls. Equipped with soundproof walls and adjustable lighting. The I-BOX ensures comfort and productivity. compact size makes it a perfect fit for any office layout, providing a secluded space without the need for extensive rearrangement.

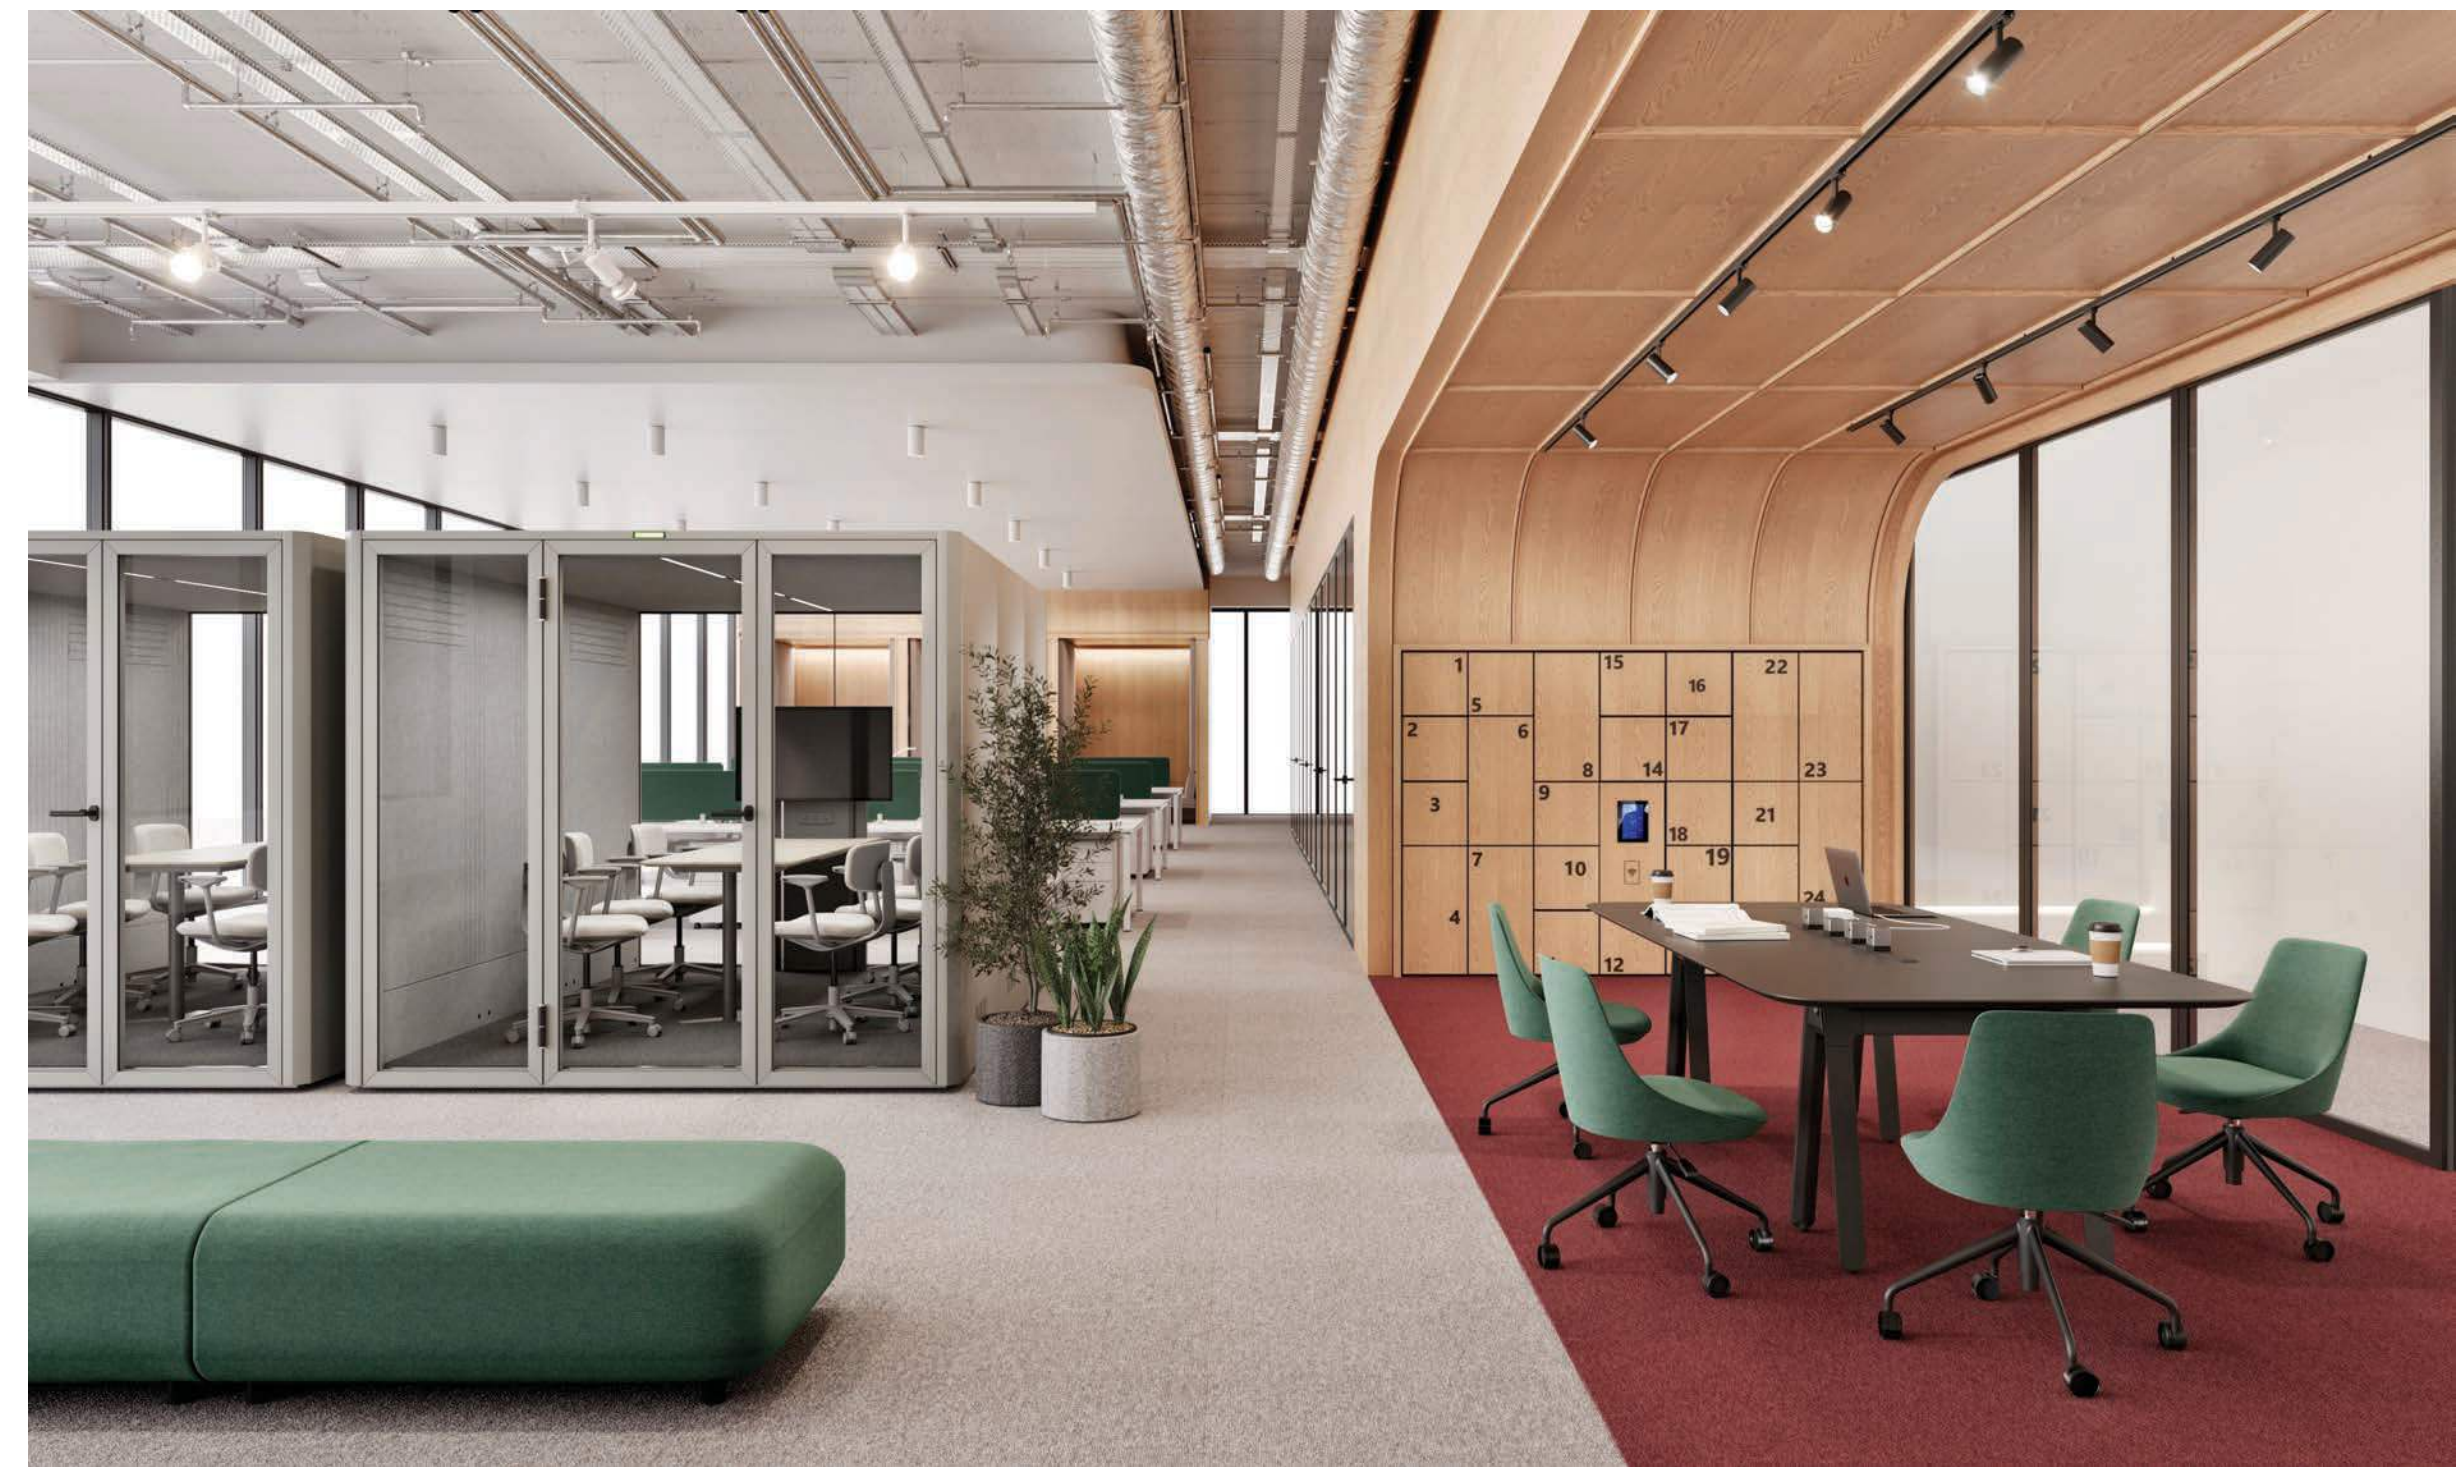

FOCUS-BOX

Enhance the idea of a personal workspace, the FOCUS-BOX offers a larger, more flexible environment for one person. It is designed for individuals who need extra room to think, create, and work comfortably. With enhanced soundproofing, a bigger desk surface, and customizable lighting, the FOCUS-BOX delivers privacy and also supports greater concentration, longer working sessions.

WE-BOX

Designed for two-person collaboration, the WE-BOX creates a private, comfortable setting for focused teamwork. It is ideal for quick meetings, brainstorming sessions, and one-on-one discussions. With soundproofing to reduce distractions and support confidentiality, the WE-BOX helps teams stay engaged and productive. The interior layout is thoughtfully designed to encourage interaction while maintaining comfort, making it a smart solution for creative and efficient collaboration in any office space.

MEET-BOX (4-6 P)

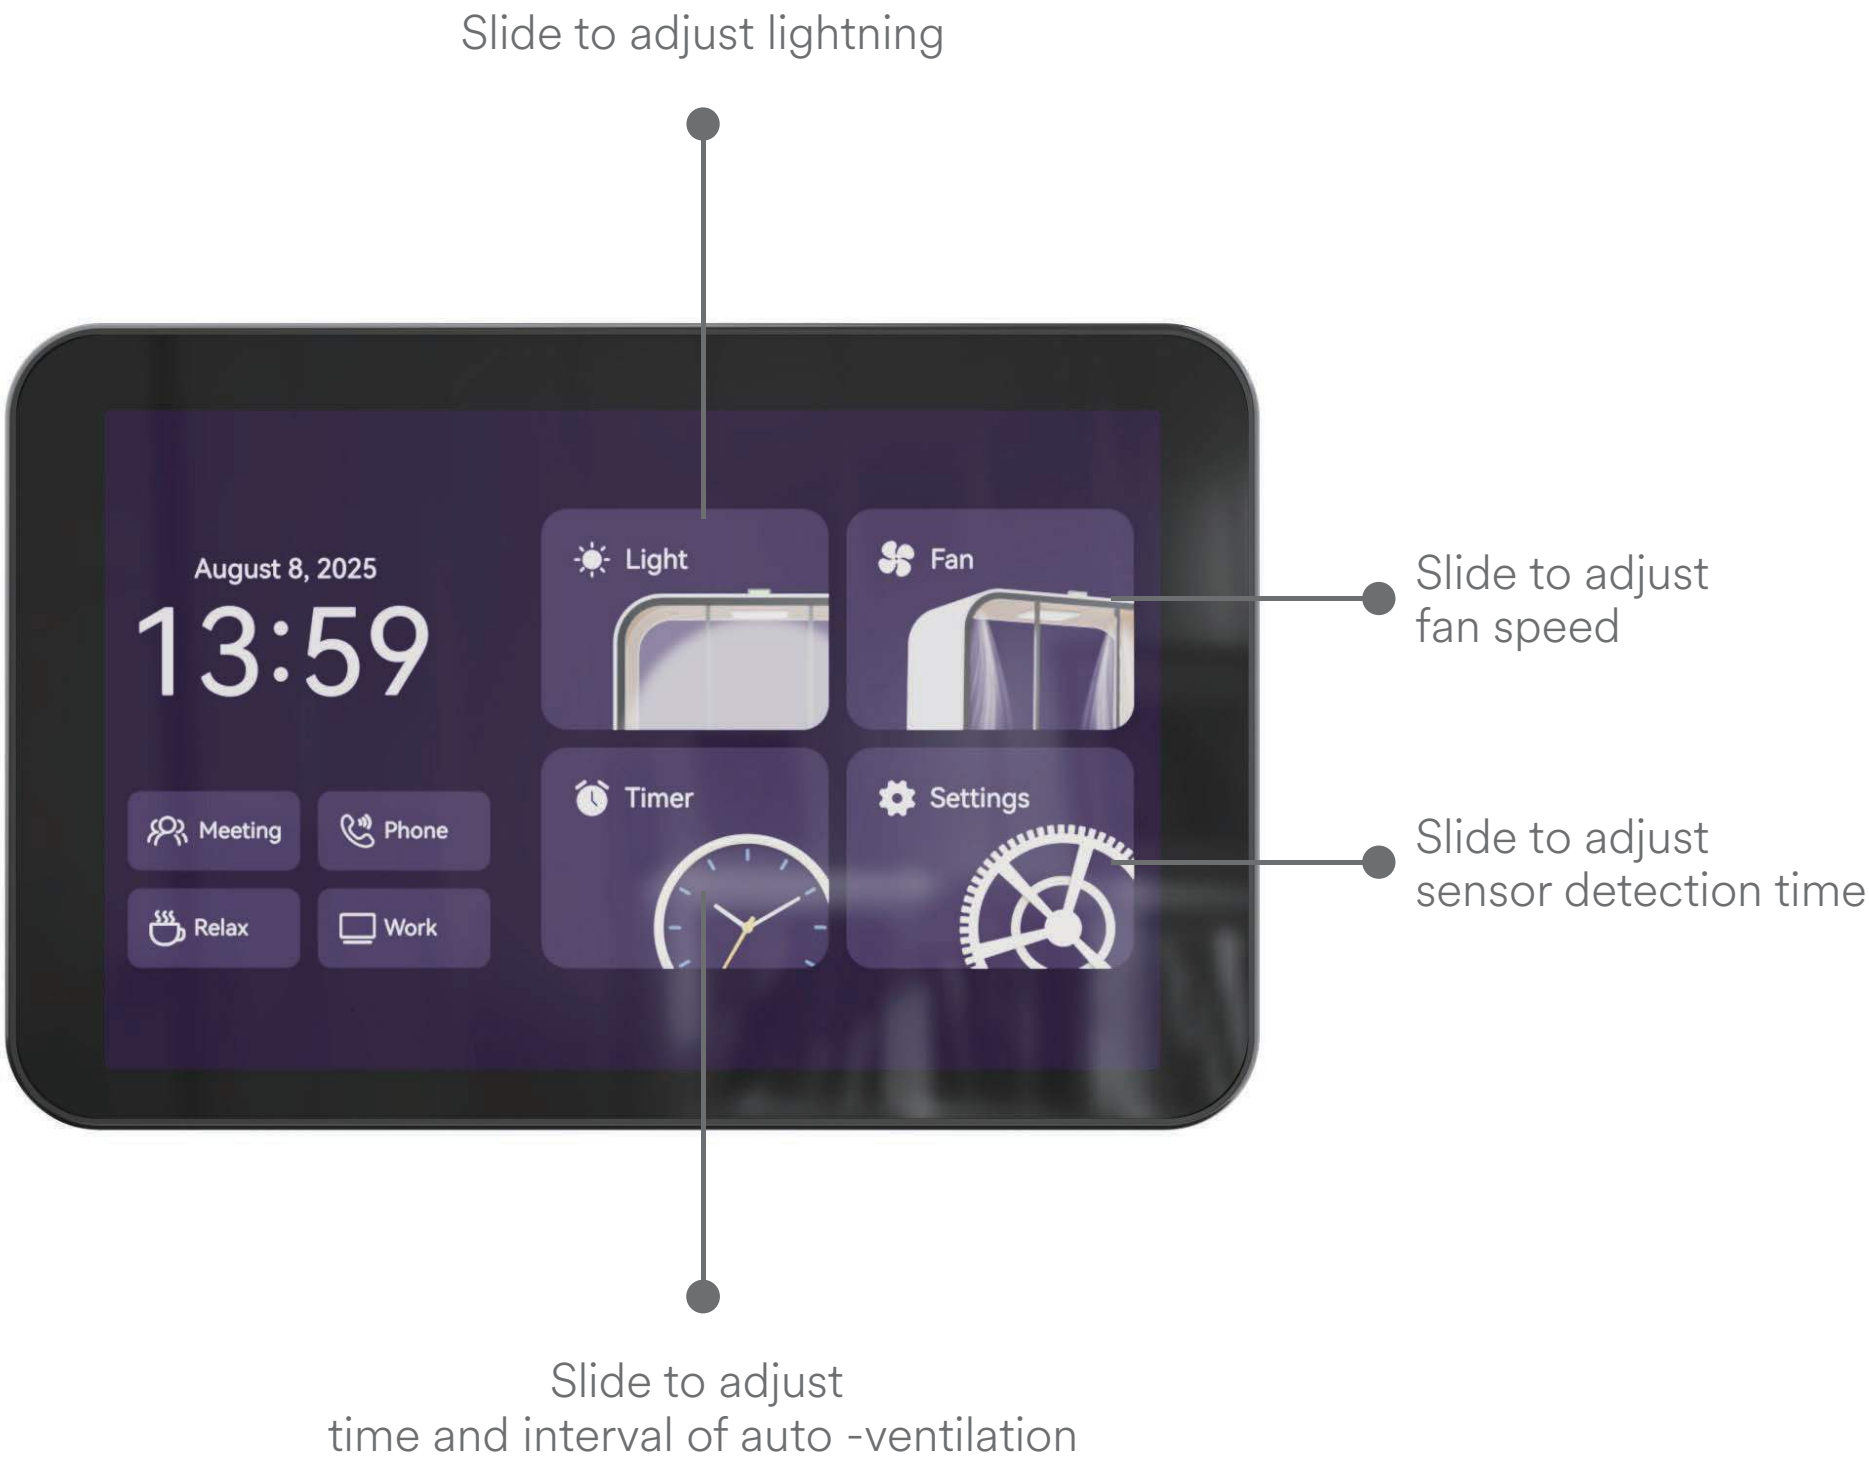

MEET-BOX creates a private, comfortable space for small-group meetings, project planning, brainstorming, and focused discussions. Its spacious layout supports a central table and comfortable seating, with integrated technology for easy power access, device connectivity, and smooth online collaboration (depending on configuration). With soundproof walls and privacy glass, it keeps conversations discreet and distractions low, helping teams stay engaged, share ideas, and work faster together.

Led Touch Pannel

integrated for user experience.

This control panel offers a convenient all-in-one solution for managing the space environment. Its intuitive interface allows users to easily adjust lighting and color, fan speed, sensor detection time, and auto-ventilation intervals using simple slide controls. Designed for comfort and ease of use, the clean display also includes quick mode selection for different activities. With quick usage, it creates a more responsive and personalized experience.

Input specs: 12V/24V,5W
Imbedding Installation : Embed
Dimensions: 191x123x22mm
Active Area: 160x100mm

Technical Features

Air Ventilation System

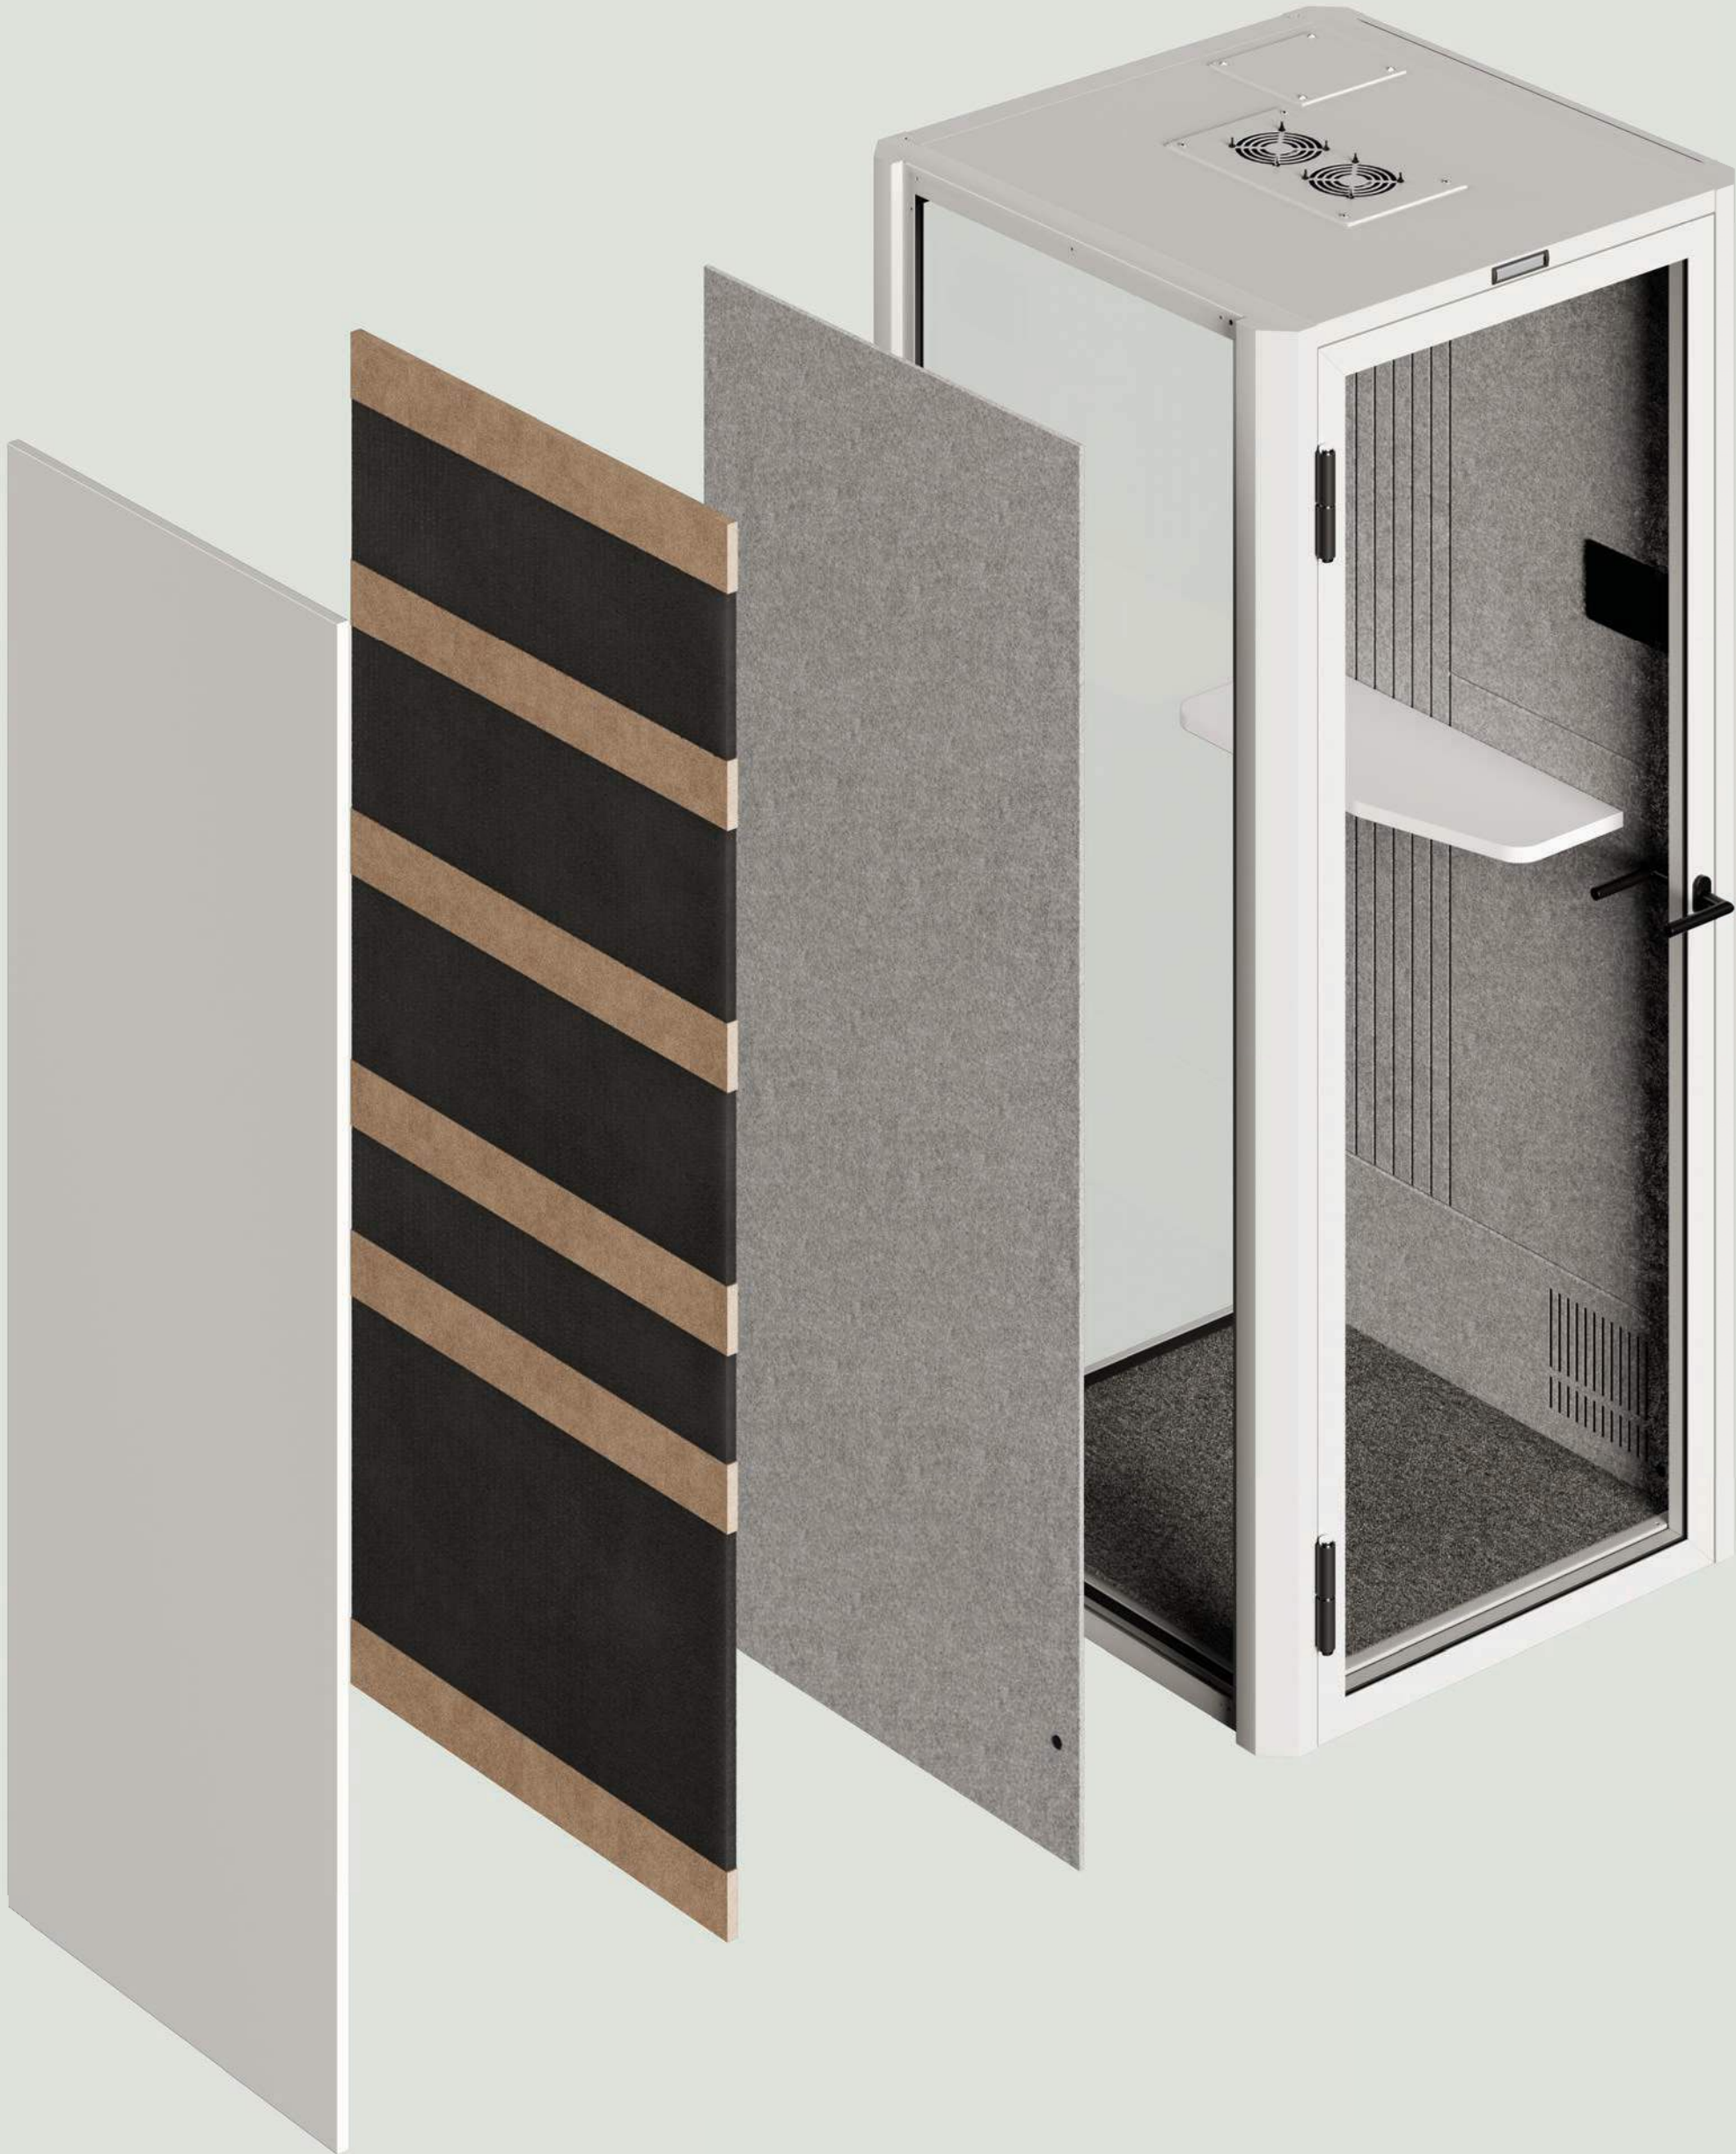

Our privacy pods feature an advanced air ventilation system that delivers a continuous flow of fresh air for a comfortable and healthy workspace. A built-in dimmer switch allows users to easily adjust airflow to their preference.

Enhance Performance and Well-being:
Improved air quality supports better concentration, faster response, and higher productivity while promoting long-term well-being and a healthier work environment.

Energy Saving and Sustainability :
The system supports sustainable workplace design by reducing energy impact and aligning with green building practices.

Noise reduction in accordance with ASTM-E336

Our Exterior and interior helps absorb sound reflections, reducing echo and creating a quieter, more comfortable space. Combined with the enclosed structure.

Experience the difference that superior noise absorption can make in enhancing focus, privacy, and overall work efficiency

Our Box achieves 28.14 dBA on average for Noise Reduction Level which encourages your conversations in privacy without disturbing other outside the Box

Seamless and intuitive user experience.

1. Status light

A simple status light lets users see availability at a glance green for ready, red for in use ensuring seamless flow in shared environments.

2. Magnetic door

A magnetic door keeps the booth securely closed with a soft, quiet pull for a better user experience.

3. Handle

The slim handle is thoughtfully designed for comfortable use, providing a gentle, effortless pull without disrupting the booth's minimalist form.

4. Air ventilation

The integrated air ventilation system ensures continuous fresh airflow, keeping the booth comfortable during use.

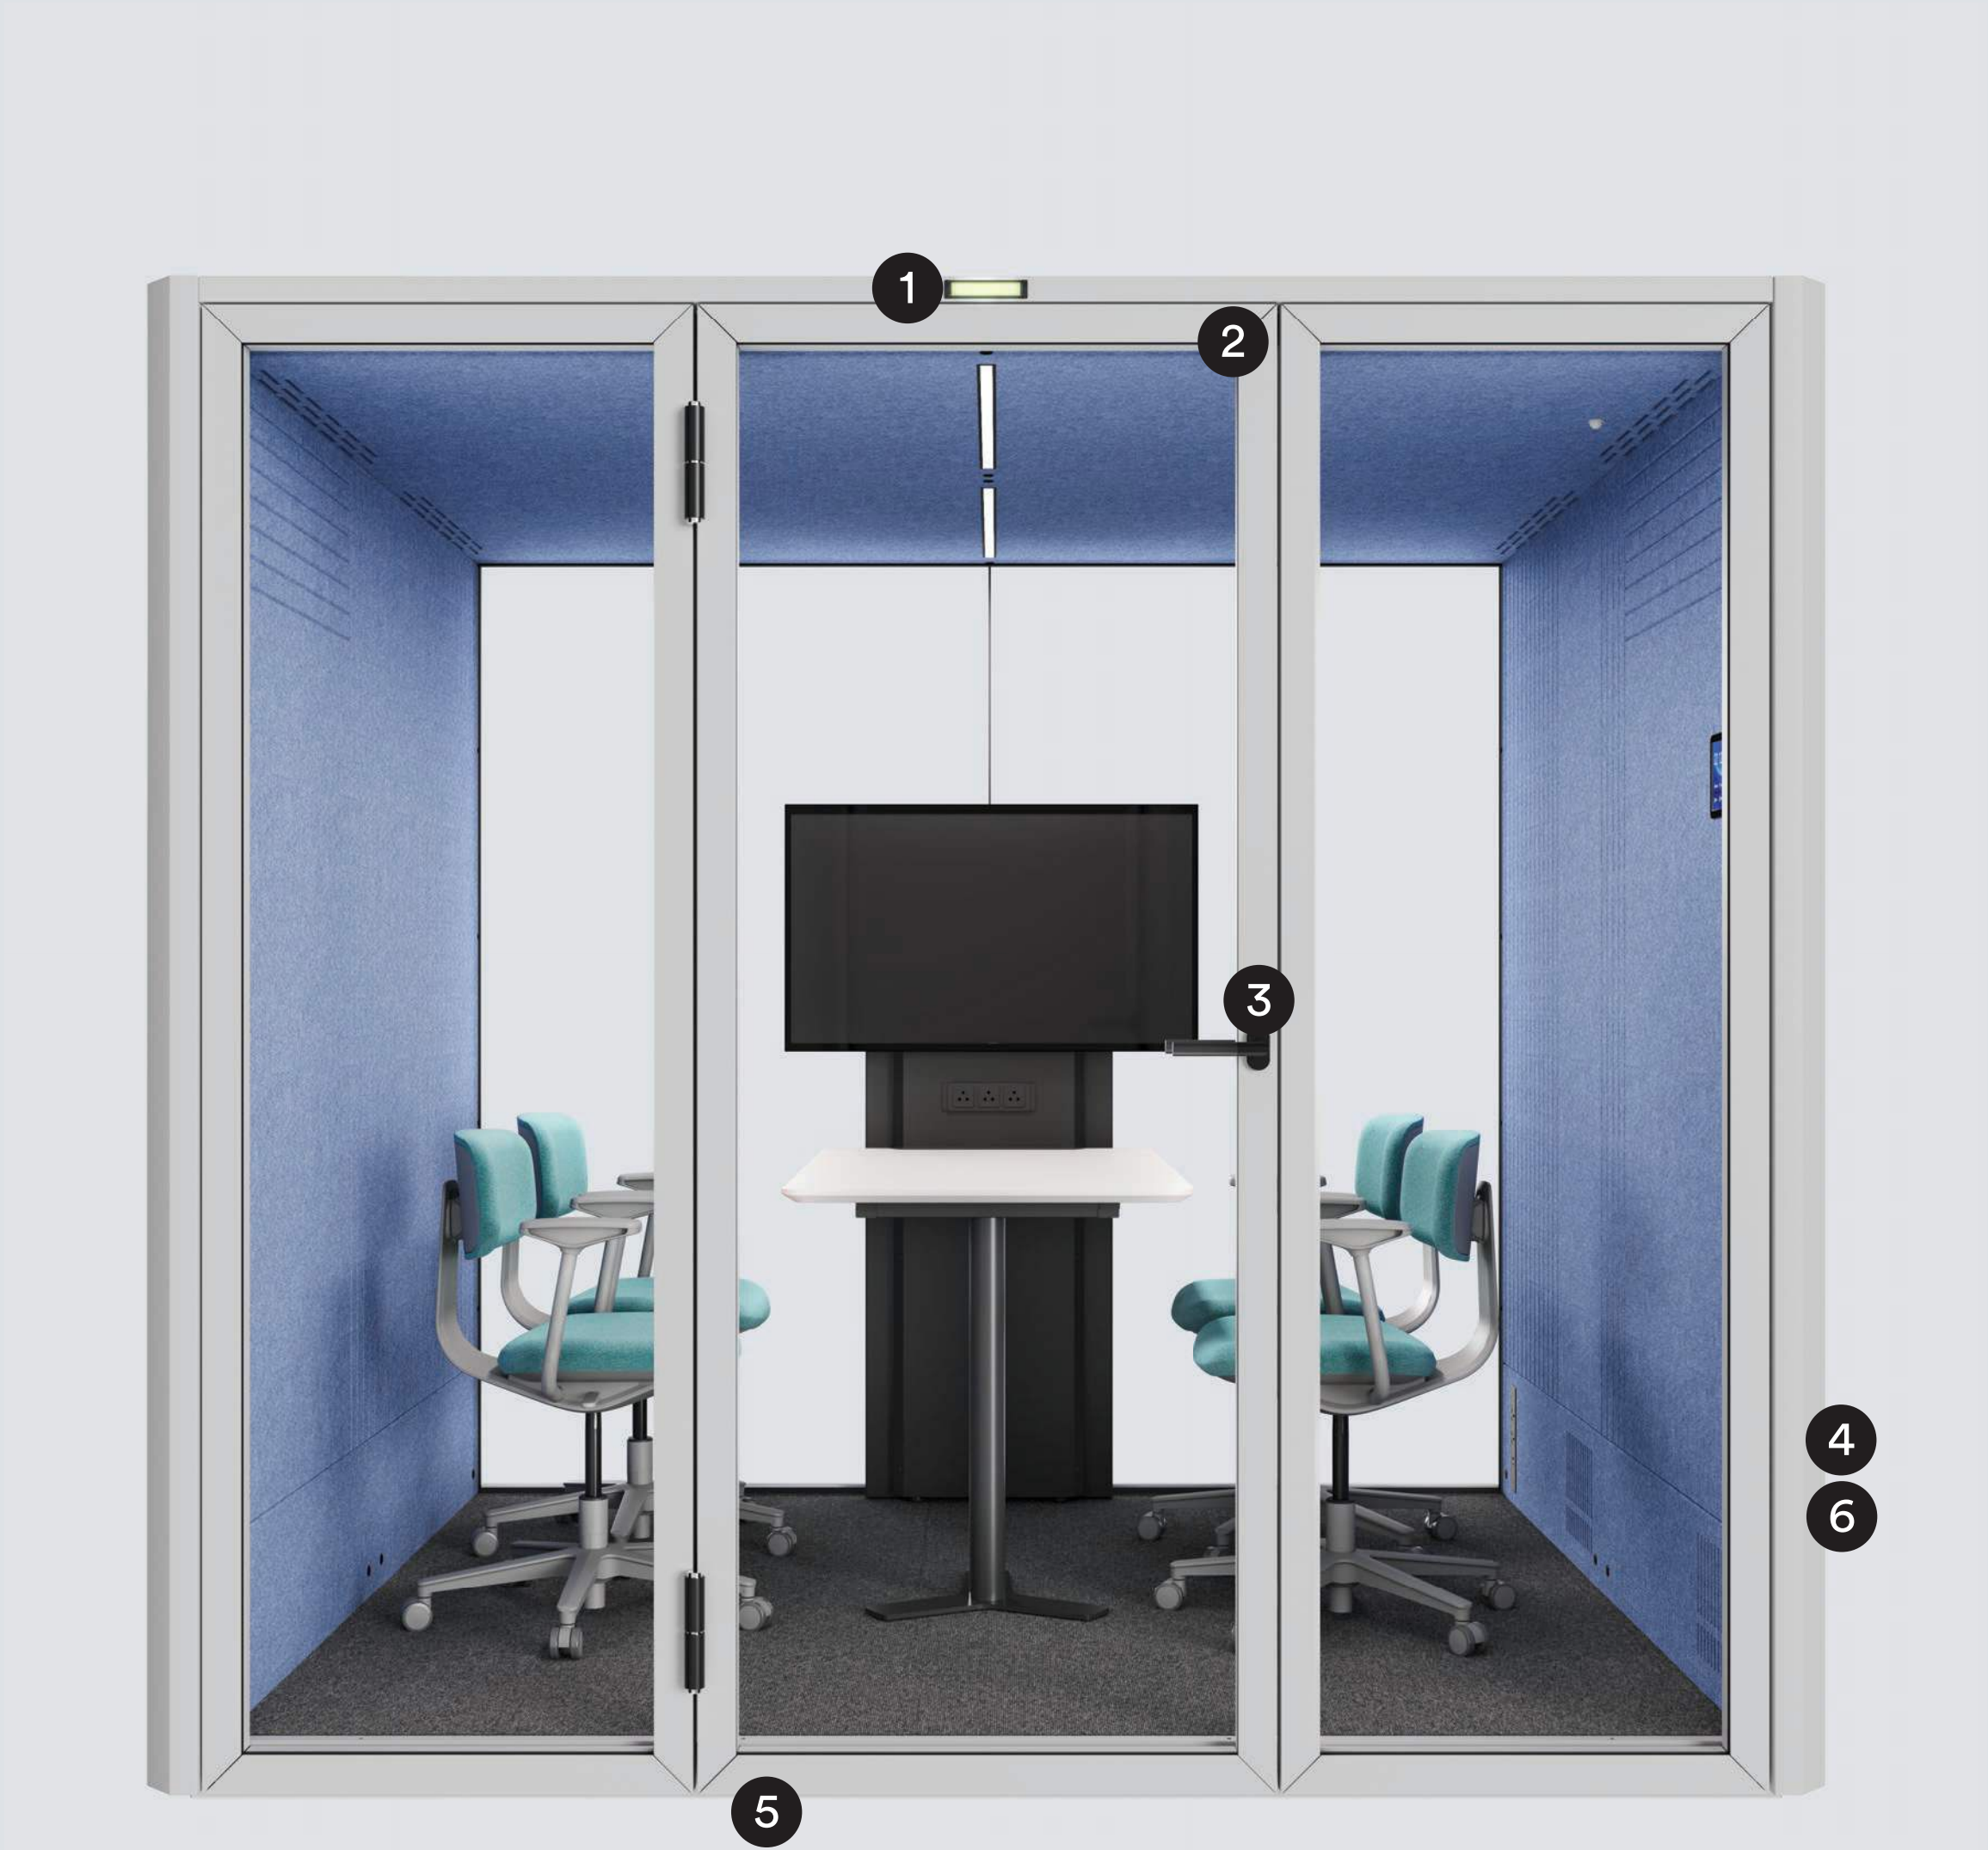

5. Hidden casters

Built-in casters allow easy movement without floor fixing, making the booth simple to relocate and adapt to changing workspace needs.

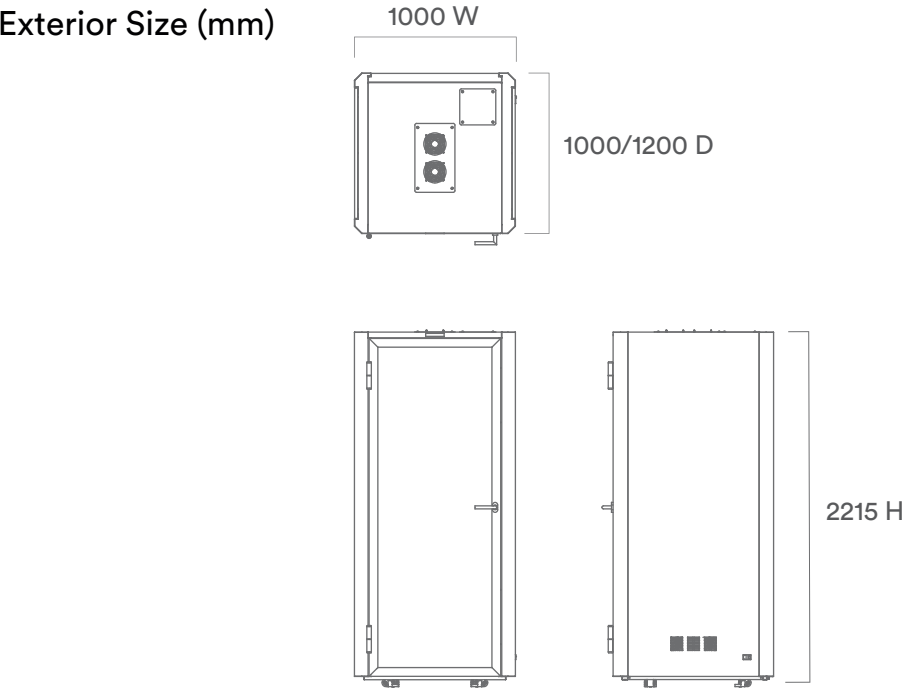

6. Integrated Cut-Out

The built-in cut-out switch allows users to control power before connecting devices, enhancing safety and reducing unnecessary energy use when not in operation.

WARRANTY

Understanding the importance of durability and structural integrity, we extend a 5 years warranty coverage on the furniture and structure of our BOXs. This includes the pod’s frame, doors, walls, built-in furniture, and any other structural components.

Our BOXs are covered with 1 year warranty on wiring system, including motor systems and all electrical components. This warranty encompasses all manufacturing defects related to the electrical systems, ensuring the pod’s functionality is maintained to the highest standards

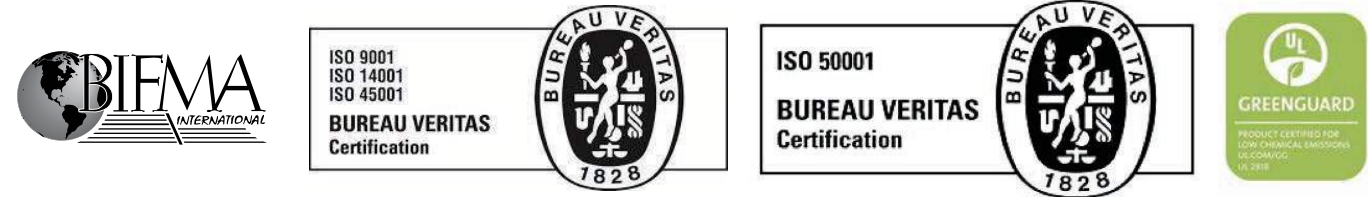

- 5
YEARS

Materials Used for Fire Safety: Discussion on the selection of fire-retardant materials for various components such as acoustic panels, floor carpet tiles, seating fabric & foam, and foam inside steel cladding.
- 1
YEARS

Standards and Tests: References to specific standards like Led touch pannel,EN13501-1: 2018 and ASTM E662 for testing materials’ fire retardancy.
- 

Flame Retardants Analysis: Details on the analysis of specific flame retardant chemicals according to US EPA 3550B standards, including results indicating no detection for certain substances

CERTIFICATE

SUSTAINABILITY

Rockworth is committed to operating with integrity and responsibility in everything we do. Our value chain reflects our deep dedication to people and the planet, guiding our actions every day. Sustainability is not just a goal—it is embedded in our mindset, shaping the way we design, produce, and deliver solutions that create a positive impact on businesses, communities, and the environment.

Safe materials
The materials and raw components used in our production processes meet stringent quality standards. They are certified to ensure they pose no risk to human health or the environment.

Waste reduction
We actively minimize raw material waste throughout the design and production stages. Examples include precision computer-cut fabrics and leathers, as well as sourcing materials in clearly defined dimensions to optimize resource usage.

Energy Efficiency
Reducing electricity consumption is a key priority for our company. We implement technical and organizational improvements and provide continuous training for employees to achieve this goal.

Waste segregation
For many years, we have successfully operated a structured waste segregation program, transferring sorted waste to authorized recycling partners. We actively encourage and educate our employees and the local community on effective waste segregation practices.

Environmental protection
We proactively identify and monitor potential environmental risks across all our operations. Our teams remain vigilant, prepared to respond effectively and responsibly whenever environmental threats arise.

CERTIFICATE

ISO 14002: 2015
Gives the requirements for environmental management systems, confirms its global relevance for organizations wishing to operate in an environmentally sustainable manner.

ISO 45001: 2018
Employees’ health and safety in the workplace and improving the well-being of within the workplace environment.

ISO 9001: 2015
Quality Management Systems is a globally recognized standard for quality management. It helps organizations of all sizes and sectors to improve their performance.

ISO 50001: 2018
Energy management system: Makes it easier for organizations to integrate energy management into their overall efforts to improve quality and environmental management.

ANSI/BIFMA
The Business and Institution Furniture Manufacturer's Association from American National Standards Institute.

Scs Indoor Air Quality
Certify to the most transparent Indoor Air Quality (IAQ) standard for furniture and building materials with Indoor Advantage and Indoor Advantage Gold.

Leadership In Energy And Environment
Based on accepted energy and environmental principles and strikes a balance between known establishedpractices and emerging concepts.

Indian Building Council Member
USGBC is best known for its development of the Leadership in Energy and Environmental Design (LEED) green building rating systems.
