WALL SYSTEMS (SERIES 99)

Features and Benefits:

Available in 9 standard laminates in Melamine, Veneer, and High-pressure laminates with PVC edge trim. PVC edge provides smooth transitions between all desks, regardless of shape or application.

Series 99 INTERWALL is a fully de-mountable, interior wall and full height storage system, offering modular systems solution to office partitioning and storage requirements.

Panel modules come in standard height of 2400 mm. and 2800 mm., and width of 450 mm and 900 mm., but custom widths and heights to 3200 mm are also available.

The modular construction and coordinated finishes of Series 99 INTERWALL, facilitates the suiting of all-interior walls including, structural/masonry cladding, solid and glazed partitions, doors, single and double sided storage walls.

All frames and panels are factory finished allowing fast, simple installation and reconfiguration. Cost savings to owner during construction, service repairs or relocating and upgrading of workstations.

Series 99 INTERWALL can be installed directly over carpeting, reducing waste and labor costs.

Freestanding Desk

The modern office can be designed to maximize both comfort and efficiency. Rockworth has consistently maintained this principle for years. Companies demand the most modern, functional and aesthetically pleasing communication equipment and office furnishing, thus it is no surprise Rockworth leads this trend. The old fashioned designs of the past have now been replaced by modern, flexible designs efficiently utilizing every available bit of space and accommodating all necessary office equipment.
