

**CHAIR****J18**

THE SOLUTIONS FOR COMFORTS

**TASK****J18**

This chair automatically adjusts the tilting intensity according to the user's weight and body shape, and features a lumbar support with dual levers for more precise lower back support. The J1 chair retains its signature clean lines, while incorporating a more compact design and improved features, delivering an upgraded comfort experience compared to the original J1.

**Auto-Adjusting Tilting Mechanism**

The weight-responsive tilt automatically adjusts the tilt resistance based on the user's weight. The tilting angle can be adjusted in 4-stage, allowing you to set it according to your work mode.

01

**Lumbar Adjustment**

The backrest pad can be moved vertically to adjust the height, while the lumbar levers on both sides allow for 3-stage depth adjustment in both left and right directions.

\*Height Adjustment (40 mm)/  
Depth Adjustment (10 mm)

01

**Seat Depth Adjustment**

The seat depth can be adjusted through the button at the lower right corner. (50 mm)

\*Available only with  
lumbar support option.

02
