

M1

THE BEGINNING OF A NEW FORM

The M1 chair offers an exceptional seating experience with its weight-responsive tilt, which automatically adjusts the resistance to the user's weight, and its lumbar support that can be adjusted using dual levers. The elegant, curved single unit chair beautifully enhances your space.

Auto-Adjusting Tilting Mechanism

The weight-responsive tilt automatically adjusts the tilt resistance based on the user's weight. The tilting angle can be adjusted in 4-stage, allowing you to set it according to your work mode.

01

Lumbar Adjustment

The backrest pad can be moved vertically to adjust the height, while the lumbar levers on both sides allow for 3-stage depth adjustment in both left and right directions.

* Height Adjustment (40 mm) /
Depth Adjustment (10 mm)

02

Seat Depth Adjustment

The seat depth can be adjusted through the button at the lower right corner. (50 mm)

* Available only with
lumbar support option.
