VALO

Rockworth

VALO
is a modular
seating system designed
to brings comfort, flexibility,
and spatial freedom to contemporary
interiors. Defined by a wide range
of configurations, it transforms
open areas into welcoming
settings for interaction, collaboration,
and focused moments. With both
straight and curved sofa configurations,
VALO adapts effortlessly to different
layouts, while optional higher backrests
provide an added sense of privacy
and comfort for more sheltered
seating experiences.

THE VALO COLLECTION

MODULAR LOUNGE SEATING

90° Seat

Curved seat with back (invert)

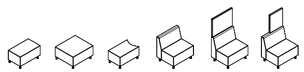

Curved seat

120° Seat external

120° Seat internal

Straight seat

Designed for modern workplaces, this lounge seating solution brings together comfort, flexibility, and visual harmony. The modular curved configuration allows for adaptable layouts, making it suitable for various activities, from casual discussions to focused individual moments. Paired with soft textures and balanced proportions, it enhances both user experience and spatial aesthetics, creating a welcoming and functional environment.

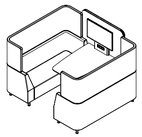

POD
& BOOTH

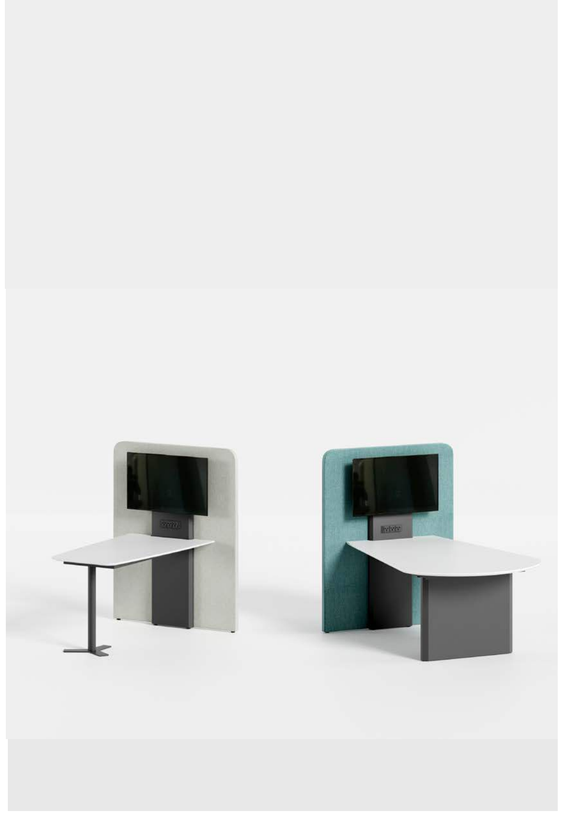

This pod & booth seating solution is designed to support both focus and collaboration in modern workplaces.
The high-back upholstered panels provide acoustic comfort and visual privacy, helping users concentrate while minimizing external distractions. Its integrated table and compact layout make it ideal for informal meetings, quick discussions, or individual work.
With soft materials and a welcoming form, it enhances both functionality and the overall workplace experience.

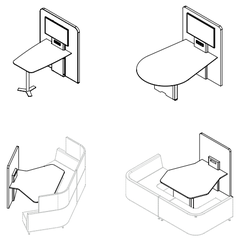

Multimedia pod

MULTIMEDIA TABLE SYSTEMS

A multimedia table system designed to bring people and technology together in one collaborative setting. Featuring an integrated display mounting structure and shared work surface, it supports presentations, discussions, digital content sharing, and collaborative activities.

PRODUCT SPECIFICATION

1.Structure & Upholstery
- Seat cushion / Back cushion / Arm cushion
  - Wooden structure thickness 15 mm
  - High density foam padding
  - Fabric upholstery
- Panel / Screen (if applicable)
  - Wooden structure
  - High density foam padding with acoustic sheet
  - Fabric upholstery

2.Table top (If applicable)
- Particle board / MDF Grade E-1 (Environmental friendly)
- Thickness: 12 / 19 / 25 mm (depending on model)
- Surface finish: Melamine / HPL (High pressure laminate)
- Edge-banding: PVC 2 mm

3.Metal Structure
- Legs
  - Steel round pipe Ø38 mm
  - Thickness: 2 mm
  - Finish: Epoxy powder coating 75–90 microns
- Beam
  - Steel pipe 38 × 38 mm
  - Thickness: 1.5 mm
  - Finish: Epoxy powder coating 75–90 microns
- Bracket / Tower Housing
  - Steel sheet thickness 1.2 mm
- Base (if applicable)
  - Steel sheet thickness 8 mm

4.Electrical system (If applicable)
- Universal power socket 3-pin 250V
- Netbox power socket (3 gang)
- USB charger (5V, 2 ports)

5.Adjuster
- Injection plastic (black color)

6.Finishes & Additional information
- Fabric upholstery available in various options
- Acoustic performance available for panel /screen components
- Epoxy powder coating provides durability and corrosion resistance

Remarks
- Specifications may vary depending on configuration and selected model
- Customization options are available upon request

SUSTAINABILITY

Rockworth is committed to operating with integrity and responsibility in everything we do. Our value chain reflects our deep dedication to people and the planet, guiding our actions every day. Sustainability is not just a goal. it is embedded in our mindset, shaping the way we design, produce, and deliver solutions that create a positive impact on businesses, communities, and the environment.

Safe materials
The materials and raw components used in our production processes meet stringent quality standards. They are certified to ensure they pose no risk to human health or the environment.

Waste reduction
We actively minimize raw material waste throughout the design and production stages. Examples include precision computer-cut fabrics and leathers, as well as sourcing materials in clearly defined dimensions to optimize resource usage.

Energy efficiency
Reducing electricity consumption is a key priority for our company. We implement technical and organizational improvements and provide continuous training for employees to achieve this goal.

Waste segregation
For many years, we have successfully operated a structured waste segregation program, transferring sorted waste to authorized recycling partners. We actively encourage and educate our employees and the local community on effective waste segregation practices.

Environmental protection
We proactively identify and monitor potential environmental risks across all our operations. Our teams remain vigilant, prepared to respond effectively and responsibly whenever environmental threats arise.

CERTIFICATES
Compliance with recognized standards and certifications

ISO 9001: 2015
Quality management system.

ISO 14001: 2015
Environmental management system.

ISO 50001: 2018
Energy management system.

ISO 45001: 2018
Occupational health and safety management system.

ISO 14064-1: 2018
Verification standard for greenhouse gas emissions management.

SCS Indoor Advantage™ Gold
Certified for low chemical emissions, supporting better indoor air quality and healthier workplace environments.

Environmental Product Declarations (EPDs)
Transparent environmental information supporting sustainability and project requirements.
